The Team Fortress 2 Director Fuge622

The Team Fortress 2 Server Head Cody

The Team Fortress 2 Server Head DragonBreath

The Team Fortress 2 Department Chairman Mixizm

Minecraft Update as Read by Dr. Baskerville

Good evening my fellow House of Players members. As Villoux's Minecraft Department Chairman, I am pleased to announce the system's largest department's status. The system currently has two active Minecraft servers – Basic Craft and Snowflake Pixelmon. Both servers have been doing relatively well, but plan to continue to expand their userbase. Additionally, I would like to congratulate both servers on appealing to users from every department within the system. The servers Izvorni Craft, Craft of the Titans, Technic Craft and Drug Craft are all nearing completion in the Villoux Beta testing phase, and plan to launch by February. I have high hopes for those servers and would like to thank the server's staff and the System's Building and Coding Departments for the hard work they have dedicated to their servers. The remaining server, New-Age Craft, has recently had their Server Head removed and will therefore be available to be taking applications for the position. If you are interested, please contact me after this evening's meeting. This hereby concludes the system's Minecraft Department update. Thank you for your time.

Thank you for that update, Dr. Baskerville. I will now open the floor to any questions, comments, or concerns in regards to Villoux's Minecraft Department. If you wish to vocalize a question, comment, or concern in regards to Villoux's Minecraft Department, please send me a private message at this point. Again, this should be a private message, not a message sent into the House of Players channel or a poke.

Thank you for that update, Dr. Baskerville. The House will now move to the Grand Council Member, Realm of the Mad God Department Chairman, King of TeamSpeak, and Guild Master of Villoux's Eight-bit Death Guild, Flosion.

Realm of the Mad God Update as Read by Flosion

Thank you for that update, Flosion. I will now open the floor to any questions, comments, or concerns in regards to Villoux's Realm of the Mad God Department. If you wish to vocalize a question, comment, or concern in regards to Villoux's Realm Department please send me a private message at this point. Again, this should be a private message, not a message sent into the House of Players channel.

Thank you for that update, Flosion. At this time, I would like to welcome the League of Legends Department Chairman Herc to give an update on Villoux's League of Legends Department.

League of Legends Update as Read by Herc

Thank you for that update, Herc. I will now open the floor to any questions, comments, or concerns in regards to Villoux's League Department. If you wish to vocalize a question, comment, or concern in regards to Villoux's League Department please send me a private message at this point. Again, this should be a private message, not a message sent into the House of Players channel.

I appreciate your update, Herc. We will now move back to the Villoux Chief of Staff, Chairman Committee Speaker, and Minecraft Department Chairman, the honorable Dr. Baskerville to discuss the results of the System Census, the Grand Council Nominations, and this month's Friend of Villoux.

System Census as Read by Dr. Baskerville

Thank you for that introduction 48, and hello again my fellow House members. I would like to take this opportunity to announce the results of the January 2013 System Census. The results were overall pleasing, and I am proud to announce that Villoux's largest department remains to be Minecraft holding a whopping 88 system defined users from 14 different nationalities. Overall, the system's Minecraft Department's userbase has increased. Behind the system's Minecraft Department and holding second place again, is Villoux's Realm of the Mad God Department holding a decreased number of 55 system defined users from 11 nationalities. Replacing Team Fortress 2 as the system's third largest department is League of Legends holding a total of 35 system defined users from 7 nationalities, making an extremely significant increase in userbase. Falling to the system's fourth largest department is Villoux's Team Fortress 2 Department which holds 13 system defined users from 2 nationalities. Finally, remaining Villoux's smallest department is the system's Terraria Department holding a total of 2 users from 2 nationalities. Overall, the system had a total of four users that were not associated with a department. The system's total user count was 203 with those users coming from 27 different nationalities. Whereas this is a noticeable decrease from the September 2012 Census in which the system held 250 users, I am still very impressed with the fact that the Villoux Server System has been able to outreach to such a large number of people from such a vast amount of places. I truly see it as a blessing to be able to lead a system in which users from so many different cultures, backgrounds, and heritages can join together as one community to practice the interest of gaming. I thank all of Villoux's Server Heads, Guild Masters, Tournament Directors, and Department Chairman for their work throughout this month.

Chairman Committee as Read by Dr. Baskerville

While on the topic of Villoux's Departments, I would like to take this time to discuss recent changes on the Villoux Chairman Committee. Last night, the Villoux Chairman Committee held their 5th meeting session, and voted on one primary matter – The recommended disbandment of Villoux's Terraria Department. With 100% of the Villoux Chairman Committee voting in favor of the disbandment and the former Terraria Department Chairman, Duyst, giving a recommendation speech for disbandment, it ales me to inform you that Villoux's Terraria Department has been officially disbanded. I do wish luck to Duyst and the other members of the former Terraria Department in getting back on their feet within the system.

Council Nominations as Read by Dr. Baskerville

Moving on to our next point of conversation, as with the System Census, every three months the Villoux Grand Council members nominate users within our system that we feel hold the potential to serve on the Villoux Grand Council. This month, I am pleased to announce that there were two users that the Grand Council especially felt should be noticed. Serving as Villoux's Executive System Press Officer for over one year's time, 48and87rock was the first to be nominated to be promoted to a Grand Council Member during the past meeting sessions. I am extremely pleased to announce that 48and87rock did achieve his goal of being promoted to Villoux's Grand Council. Therefore, I will hereby be the first to welcome my new college, 48and87rock, to the Villoux Grand Council. Congratulations 48; I wish you luck in serving on our Grand Council. Additionally, there has been another change on the system's Grand Council. Tonight I announce the retirement of a long time member of this system's Grand Council, a beloved member within the Villoux community, and a marvelous builder. Mrs. Pbaron88 and I have agreed that her time as Villoux's Executive System Builder has expired. Mrs. Barron gracefully retired from her position earlier this week due to a lack of interest in Minecraft, and the fact that she feels that Villoux deserves an Executive System Builder that can devote more time than she presently can into the department. Do not fear, Mrs. Barron will still remain an active member within Villoux's society, but will not hold the same administrative rank. I thank Mrs. Barron for the wonderful 7 months of service she has proved to this grand system as our finest Executive System Builder. Replacing Mrs. Barron on the Villoux Grand Council as the Executive System Builder is her former Building Manager, Sammygman. Mrs. Barron, myself, and the rest of the Grand Council have full confidence that Sammy will perform no less than exemplary in his new position. With that, may I also be the first to hereby welcome Sammygman to the Villoux Grand Council as the system's Executive System Builder.

Closing Ceremonies as Read by Dr. Baskerville

Finally, before I begin the closing ceremonies, I would like to take this time to announce this month's Friend of Villoux. As many of you are already aware, each month myself, the Executives, and the Department Chairman of the system nominate and select one member of the system to recognize for outstanding service to the system throughout the last month. This month, I am pleased to welcome the \$25 USD prize to Villoux's Operative Manager, IFarmmy. Please speak with me after the meeting to claim your prize, Mr. Farmmy. With that, I will now move to the official closing ceremony. I would like to begin by thanking the now Grand Council Member 48and87rock for mastering this 11th House of Players meeting, and I would like to equally thank the rest of the system's Executives for their hard work. Finally, I would like to thank you, the hard working staff of Villoux, for all of the countless effort that you all devote to this system to make it so grand. That being said, I, Dr. Baskerville, do hereby call this 11th meeting of the Villoux House of Players to be adjourned!
