The League of Legends Tournament Director Dragonride  
The League of Legends Department Chairman Herc

The Minecraft Server Head Stutterfoot

The Realm of the Mad God Guild Master Xethyl

The Team Fortress 2 Tournament Director Adrian

**Transition: We shall now begin this 13<sup>th</sup> session. It gives me great pleasure to introduce the Executive Baskerville Assistant, April, to give a status report on the system's Minecraft Department.**

## *Minecraft Department Update as Read by April*

Good evening my fellow House of Players members. I am the Minecraft Department Chairman, Chairman Committee Speaker, and Villoux Chief of Staff, the honorable Dr. Baskerville's Executive Assistant, April. Unfortunately, Dr. Baskerville will be absent from this 13<sup>th</sup> meeting due to a bad case of laryngitis. He is, however, on the road to recovery. On any account, I am pleased to announce the status of the system's largest department. Our department is currently recovering from a good number of damages, but is on a quick road to recovery. Presently, the system only has one active Minecraft server – Snowflake Pixelmon. This server does extraordinarily well and brings in a user base that more than picks up for the other server's lack. The servers of Izvorni Craft – Villoux's Towny and Free-Build server, New-Age Craft – Villoux's Medieval Roleplay server, and Technic Craft – Villoux's Tekkit server are currently polishing up to begin Villoux Beta within the coming weeks. Izvorni Craft recently underwent a map loss, so the entire map had to be rebuilt by scratch, Technic Craft had been having issues with our hosting provider, and New-Age Craft had lacked properly coded permissions, however now all of these issues have been resolved. I would like to thank the Minecraft Server Heads, Beameron, Deepblew, and Donutbomber for their patience and strong work ethic throughout this time. Villoux's PVP Server, Craft of the Titans, is still without a Server Head, and I continue to take applications for it. Villoux's Drug Roleplay server, Drug Craft, is also without Server Head, however applications are not being taken due to the fact that the server is one of the most difficult to run. Progress on Drug Craft will not be made until a Server Head is appointed. The last server, Basic Craft – Villoux's Simple Survival server, has recently had their Server Head, the honorable Grand Council Member Smudd, be issued a two month system hiatus for personal matters. Therefore, Basic Craft will not progress until Mr. Smudd has returned to the system next month. Finally, the System Building Server is now online thanks to the help of the Coding Manager, Mr. Hobomatt4, and the Executive System Builder and Server Head of the System Building Server, Mr. Sammygman. I thank both of those gentlemen for their combined efforts on getting that server online. The System Building server will continue to be a private server reserved only for Villoux's Minecraft Building team. The server will, however, be open to the Minecraft Server Heads every Saturday at 12PM US Central. Finally, I would like to state at this time that Dr. Baskerville will be sponsoring a Minecraft Department Meeting that is an

optional meeting to be held in the Radio Villoux Spacer at 8:00 PM US Central on Monday of the next week to answer any questions in regards to the system's Minecraft Department. I thank you for your time!

**Transition: Thank you for that update, April. As Ms. April stated, Dr. Baskerville will be holding a make-up question, comment, and concern question this Monday in the Radio Villoux channel for any House members that do have any questions, comments, or concerns in regards to the system's Minecraft Department. It now brings me pleasure to welcome the Department Chairman of Villoux's second largest Department, the Realm of the Mad God Department Chairman and honorable Grand Council Member, Flosion.**

*Realm Department Update as Read by Flosion*

**Transition: Thank you for that update, Flosion. The House will now open to any questions, comments, or concerns for Flosion in regards to the system's Realm of the Mad God Department. Please signify that you have a question, comment, or concern by sending me a private message stating "question, comment, or concern" respectively.**

**Thank you again for that update, Flosion. The system will now move to our third largest department, League of Legends, and their Chairman, Herc, to give an update on their department.**

*League Department Update as Read by Herc*

**Transition: Thank you for that update, Herc. The House will now open to any questions, comments, or concerns for Herc in regards to the system's League of Legends Department. Please signify that you have a question, comment, or concern by sending me a private message stating "question, comment, or concern" respectively.**

**Thank you again for that update, Herc. Unfortunately, there will not be an update on the system's fourth department, Team Fortress 2, at this 13<sup>th</sup> meeting. With that being said, it now brings me great honor to lead you all in the closing ceremonies.**

## *Closing Ceremonies as Read by Sammygman*

Good evening Villoux House of Players. May I begin this closing ceremony by announcing the recipient award given each month in special recognition of a hardworking staff member, the Friend of Villoux Award. Dr. Baskerville has stated that this user “showed great work ethic when engaged in an unfortunate situation and did not allow anything to pull him down”. The Friend of Villoux for the month of March is (brief pause), the Minecraft Server Head Beameron! Congratulations Beameron, please speak to Dr. Baskerville about the award at your next weekly meeting with him. Moving on, Dr. Baskerville has requested that I thank all of the system’s hardworking staff, members, and other users. He says that he and the rest of the Grand Council truly appreciate all of the dedication and effort that you all have given to this grand system. With that, I, the Executive System Builder, Sammygman, do hereby dismiss this 13<sup>th</sup> Villoux House of Players!
