

# *Villoux Server System*

## *House of Players Proceedings*

Order, order! I, Dr. Baskerville, do hereby call to order this 26<sup>th</sup> meeting of the Villoux House of Players on this 22<sup>nd</sup> day of May in the year of 2014. Topics of conversation for this meeting will be: System Census Results, Department Updates, and Closing Ceremonies. At this time, the House of Players channel chat will be closed. If you type into this channel at any time, you will be moved out of the channel, and will be marked absent from this meeting.

The Realm of the Mad God Tomb Master Bluzy

The Team Fortress 2 Tournament Director ASAP Tyca

The Team Fortress 2 Server Head Tixie

**Transition: We will open this evening's meeting with the results of this month's System Census.**

*System Census Results as Read by Dr. Baskerville*

As I am sure you are all aware, every three months the system holds a System Census to survey elements such as the amount of users in the system, how diverse the system is in regards to nationality, and which departments are bringing in the largest amounts of user. The requirements for a user to be defined in the System Census, as outlined by the System Census Ordinance in the Villoux Bill of Ordinances, are as follows: "In order for a user to be counted in a department, the user must have been active in Villoux for at least one month prior to the census, must use the Villoux TeamSpeak server regularly, and must not be issued a hiatus or be inactive in the system for excess one month. If a user violates any of the above stated, he/she is ineligible to be counted in the System Census." Now that you have a better understanding of the census, I shall proceed with the May results.

Unfortunately, this month's census showed yet another decline in activity in the system from all departments. In total, the system had 173 user defined. This is another noticeable decrease from January 2014's 203 users and September 2013's 252 users. In total, the system suffered an 18% decrease from January and a 45% decrease from September. I will speak more on these extremely disappointing numbers at the end of the Census Report.

In regards to nationalities, the United States of America still dominates other nationalities by providing Villoux with 55% of overall userbase coming from the US. The nationalities in total for the system are as follows: 55% from the United States of America, 12% from Canada, 7% from Finland and Portugal respectively, 4% from Australia, 3% from the United Kingdom, 2% from Ireland, 1% from Latvia, South Korea, and USA-Vietnam respectively, and, finally, 0.5% from Belgium-Portugal, Chile, the Czech Republic, the Netherlands, Saudi Arabia, Sweden, USA-Cuba, USA-Greece, USA-Israel, USA-Jamaica, USA-Mexico, USA-Russia, and Venezuela respectively.

I am sure that all of you have noticed the difference in the order of the spacers on our TeamSpeak server. As set out in the Villoux Board of Ordinances, the system's departments will be listed on the TeamSpeak server from largest to smallest, with the largest department being listed directly after the Government spacer. This month, the League of Legends Department surpassed the Minecraft Department in total userbase; therefore the League Department will henceforth be listed above the Minecraft Department. As of this month's census, the League Department holds 59 users, which is a slight decrease from January's 62 users. Also surpassing the Minecraft Department is the Realm of the Mad God Department, which holds 55 users – another slight decrease from January's 60 users. This places the Minecraft Department as the third largest department in the system. In the census, the Minecraft Department had 43 users defined. This is a very noticeable decrease from January's 63 users. I will speak more about the decline of

the Minecraft Department in my Minecraft Department Update later in tonight's meeting. Taking place as the system's smallest department will continue to be the Team Fortress 2 Department. As of this month's census, the TF2 Department had a total of 17 users, which is a stalemate from January's 17 users.

With that being said, the new rankings are as follows: the League of Legends Department has surpassed the Minecraft Department as the largest department within the system, the Realm of the Mad God Department has inherited the title of second largest department from the League of Legends Department, the Minecraft Department has decayed to a position as the third largest department in the system, and the Team Fortress 2 Department remains in its place as fourth largest and, therefore, the smallest department in the system. It should be noted that there was one user in the system was not claimed by any department and therefore inherits the title of being "Non-Defined". Percentage wise, 34% of the system comes from the League of Legends Department, 32% from the Realm of the Mad God Department, 25% from the Minecraft Department, and 9% from the Team Fortress 2 Department.

I find this to be the appropriate time to make the House aware of a change on the Chairman Committee. The Department Chairman of the system's largest department earns the honorary title of "Chairman Committee Speaker". Whereas the title is not an official staff position, it is a very distinguishable one. Seeing as the Minecraft Department was the largest department within the system, and since I was the Minecraft Department Chairman, the title was held by me; however, now that the League of Legends Department has become the largest department within the system, I shall yield that title to the League of Legends Department Chairman, Mr. ChewOnDiss.

With that being said, I would like to end our report by thanking Mr. ChewOnDiss, Mr. SoulThief, and Mr. Sweethear for their dedication to the system and their respective departments. I would like to additionally thank the Baskerville Cabinet, namely the Baskerville Assistant, Mr. Flogknw, for their assistance in counting and calculating the census results. I wish to stress the fact that our Census could not be completed without the cooperation of both the Chairman Committee and the Baskerville Cabinet. Before we conclude the System Census Results and move to the Department Updates, I would like to take a moment to stress the fact that the system is presently very under-staffed. Take a look at the members that have attended the House of Players meeting tonight. As many of our older members in the system can tell you, staff levels are at all-time low. Where there should be four Minecraft Server Heads, there are two. Where there should be eight Minecraft Builders, there is one. Where there should be three League of Legends Tournament Directors, there are none. The Team Fortress 2 Department is expected to advertise, host, and direct monthly tournaments with only one Tournament Director, when there should be three. The Realm of the Mad God Department is expected to reel in additional users from the system with just one guild and only one Guild Master. The System Press Department is expected to successfully host weekly Friday night events with only one DJ and a DJ Manager, opposed to having a full staff of five. One thing that I will *never* allow to change within this system is our motto, "Where Excellency is Your **ONLY** Option". Unfortunately, I do not feel that it is within our ability as a system to

provide Excellency without a proper amount of staff. Therefore, I encourage you; nay I need you, to invite your friends to join you in your department. Inform your friend that is good at writing that the Press Department is hiring, tell your friend who is good at coding that the System Coding Department is looking for people just like him, notify that stern, up-tight stick-in-the-mud that he is just what the Operation Department is looking for. Please, help me help our system by encouraging the greatest influx of staff that this system has ever seen. With *that* being said, I hereby conclude the System Census results.

**Transition: We will now proceed with the Department Updates, starting with the system's largest department – the League of Legends Department. At this time, I will welcome the League of Legends Department Chairman and the Chairman Committee Speaker, Mr. ChewOnDiss to the floor.**

## *League of Legends Update as Read by Chew On Diss*

Good evening, Villoux House of Players, as your League of Legends Department Chairman, it pleases me to bring you this month's Department Update; however, before I do so I would like to take a few moments to discuss the former League of Legends Department Chairman, Mr. Viper Mk II. Unfortunately, and after nearly two months on a hiatus, the Chairman Committee felt the need to demote Mr. Viper for excessive inactive, despite his hiatus. The Chairman Committee agreed that whereas Mr. Viper's hiatus is for a good cause, the system must not be allowed to suffer from his activity. That being said, I was named heir to the department and have been the acting Department Chairman since late last month. At this time I would like to give a brief introduction of myself. I joined the system in November of 2011 as a member of ZdPanthr's Drug Craft. Since joining, I have served as a League of Legends Tournament Director, and an active member within the Minecraft and Team Fortress 2 Departments. With formalities out of the way, we will begin our League of Legends Department Update.

In our last 5v5 tournament, Mr. DeadlyBasket led his team to victory and became the champion of our 19<sup>th</sup> 5v5 tournament. The next 5v5 tournament will be held on Saturday, June 21<sup>st</sup>. If you wish to register for the tournament, please send me a private message after tonight's meeting.

In addition to the monthly 5v5 tournament, the League Department is also supposed to be responsible for hosting a 2v2 tournament. Unfortunately, the department has not had enough users interested in the 2v2 tournament despite the very positive reaction from the House of Players when an opinion poll on the matter was held. We have not yet made the decision to cancel the 2v2 tournaments, but will continue to hold-off on them until we see a greater demand.

Tournaments aside, I have made the decision to wipe Villoux's Ranked Team. Since most of the former members of our Ranked Team were appointed by Mr. Viper, and since none of them seem to be active without Mr. Viper, I felt the need to revise our team's roster. I have yet to publish a former roster, but hope to do so sometime soon.

Overall, March has been a rather slow month for our department. We have seen a fairly large decrease in user-base from our American and Canadian users, but we are not too sure why. In order to counter the decline in user-base, I have made a post on the League of Legends website advertising Villoux's TeamSpeak server and our monthly tournaments. At this time, I will provide a link in chat to the post and would like to request that all members "bump" the post whenever they have some free time. Please note that you must have an account in order to bump the post, but making an account takes only a few seconds. Please help me, the League of Legends Department, and Villoux grow by spreading the word about our wonderful server system.

I believe that that concludes my Department Update. I hereby yield my time to the floor and look forward to any questions, comments, or concerns that you may have. Thank you.

**Transition: The House will now open the floor to any questions, comments, or concerns in regards to the League of Legends Department. If you have a question, comment, or concern, please send me a private message, not a poke, with “question, comment, or concern”, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system’s League of Legends Department, we will now move the system’s second largest department, the Realm of the Mad God Department. Please join me in welcoming their Department Chairman, Mr. SoulThief, to the floor.**

## *Realm of the Mad God Update as Read by Soul Thief*

Good evening, Villoux House of Players; as your Realm of the Mad God Department Chairman, it gives me great pride to bring you this month's Realm of the Mad God Department Update speech.

The first order of business that I would like to address is welcoming the two new members of our department: the Realm of the Mad God Tournament Director, Mr. Bluzy and the Realm of the Mad God Tomb Master, Mr. TheBadGod. The Realm Tournament Director position is a newly created position that is responsible for aiding me in recruiting and managing our monthly Tomb Run tournaments. As a Realm Tomb Master, Mr. BadGod is responsible for changing the Tomb Channel's password whenever it is requested to be used by a member of our department. Mr. BadGod is able to reserve and moderate the Tomb Channel whenever I am unable to do so, so please feel free to contact him whenever you would like to use that channel for a dungeon run.

The next topic that I would like to discuss is the results of our 3<sup>rd</sup> Dungeon Runs Tournament. The TeamSpeak Operator, Mr. Tauerpower was named champion for completing the Undead Layer dungeon in just 0:49 seconds. Congratulations, Mr. Tauerpower and thank you to all of the members of the House that participated in this month's tournament. Next month's tournament is set to be the Mad Lab dungeon, which will be held on June 06 at 8:00PM US Central. If you wish to register for the tournament, please contact our Realm of the Mad God Tournament Director, Mr. Bluzy after tonight's meeting.

The next topic that I wish to address is the disbandment of the Luxerion and Tome guilds. Quite unfortunately, neither of those two guilds were able to maintain Villoux standards and had to be cut. As the right honorable Villoux Chief of Staff, Dr. Baskerville mentioned in the System Census report, this leaves the Realm Department with just one guild. I would like to encourage all of you to refer any friends that you have that own guilds to me and invite them to Villoux's TeamSpeak server. I am always looking for additional guilds and Guild Masters, so please send me any guild/individual that you know that might be interested in obtaining a channel here.

The final topic I would like to discuss is my brief hiatus during the month of April. Out of over 800 different applicants, myself and twenty-two other individuals were selected to become part of the Closed Testing Group for the Realm of the Mad God's company host, Kabam. This meant that I was given an opportunity to fly overseas to Japan. I would like to extend my most heartfelt thanks to Villoux's Realm community for the warm congratulations that I received when I was informed that I was accepted. It meant a lot to me.

At this time, I will thank the House of your attention, and I hereby conclude my Realm of the Mad God Department Update. I yield my time to the floor, and look forward to any questions, comments, or concerns that you may have.

**Transition: The House will now open the floor to any questions, comments, or concerns in regards to the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message, not a poke, with “question, comment, or concern”, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system’s Realm of the Mad God Department, we will now move the system’s third largest department, the Minecraft Department. At this time, I request that you direct your attention to me as the Minecraft Department Chairman.**

### *Minecraft Update as Read by Dr. Baskerville*

Villoux’s Minecraft Department has consistently served as the heart of our system. It is the seed that sparked the growth of our system’s greatest expansion; it is the cause of the arrival of numerous Department Chairmen, Executives, and Grand Council Members; and it is the source of nearly all of our system’s donations. Indeed, it has pumped users into all departments as if a heart was pumping blood into veins. Unfortunately, it seems as if our system has suffered a heart attack. The Minecraft Department’s performance has been nothing but pitiful for the past two months.

The system’s simple survival server, Basic Craft, is presently without a Server Head. If you are interested in this position, or know anyone that might be interested in this position, please contact me after tonight’s meeting to arrange an application. Our Factions/PVP Server, Craft of the Titans, is still a work-in-progress due to the Executive System Builder, Mr. Ssup\_Dawg’s continued hiatuses, however it is looking at an early June release. Villoux’s drug role-play server, Drug Craft, is continuing to be constructed by the Executive Baskerville Assistant, Mr. Cronus and the Grand Council Veteran, Mr. Sullivan. Finally, Villoux’s Pixelmon server, Vivo Pixelmon is presently undergoing a drastic change in administration. I will have more information on this change at next month’s meeting.

Now, whereas I could chose to point my finger at inactive Server Heads, inadequate Coding and Building staff, or the complete lack of a Press Department, I instead find it to be more affective to reform our Minecraft Department back to the way that it worked before it became reliant on the system to function. In order to aid me in doing so, I have recruited the assistance of one of our long-time Grand Council Member and present Grand Council Veteran, an extremely dear friend of mine, Mr. Crokeykid. Mr. Crokeykid is going to begin assisting me in revising the way that our Minecraft

Department works, and is going to do so majorly by adding another new server to our department. I feel confident that with the aid of Mr. Crokeykid, our Minecraft Department will shortly regain its status as the largest and most respected department within the system. Watch out, Mr. Chew. With that being said, I hereby conclude my Minecraft Department Update speech.

**Transition: The House will now open the floor to any questions, comments, or concerns in regards to the Minecraft Department. If you have a question, comment, or concern, please send me a private message, not a poke, with "question, comment, or concern", respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system's Minecraft Department, we will now move the system's smallest department, the Team Fortress 2 Department. Please welcome the Team Fortress 2 Department Chairman, Mr. Sweethear to the floor.**

## *Team Fortress 2 Update as Read by Sweethear*

Good evening, Villoux House of Players. As your Team Fortress 2 Department Chairman, it excites me to bring you this month's Team Fortress 2 Department Update. Last month's tournament featured three successful and fun games between Red and Blu team and ended with Mr. ShadowBoo being named tournament champion. The next Team Fortress 2 tournament is going to be held this Saturday, and it is not too late to register! Please contact me sometime after tonight's meeting if you wish to be added to this month's tournament roster.

In addition to inviting users to our department by means of tournaments, we have also opened our Main Server to the public. The Main Server Server Head, Mr. Tixie is going to be a great help to me in advertising and managing the server, and I look very forward to seeing the strong results that it has! With that being said, I hereby conclude my Team Fortress 2 Department Update and look forward to any questions, comments, or concerns that you may have. Thank you.

**Transition: The House will now open the floor to any questions, comments, or concerns in regards to the Team Fortress 2 Department. If you have a question, comment, or concern, please send me a private message, not a poke, with "question, comment, or concern", respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system's Team Fortress 2 Department, that now concludes the Department Updates portion of tonight's meetings.**

## *Closing Ceremonies as Read by Dr. Baskerville*

Good evening to you all again. I wish to stress the importance of tonight's meeting to everyone one final time, and, again, invite you to encourage every user that you know to take a stand for our system and gain a staff position. As tonight's evening comes to a close, I would like to take this time to announce this month's Friend of Villoux Award recipient. As you know, the Friend of Villoux Award is an award we give out every month to a particular member of the system that has gone above and beyond in their respective position. It pleases me very much to announce that this month's Friend of Villoux Award is none other than the Baskerville Assistant, Mr. Flogknw. Mr. Flog has been absolutely instrumental in helping with this month's census and providing any and all other forms of support that I may need. Thank you, Mr. Flog. With that being said, on behalf of the system, I would additionally like to extend my heartfelt thanks and appreciation to you – the members of Villoux's staff that make the system a place where Excellency is your only option. With that mind and in heart, I, Dr. T. Baskerville, do hereby adjourn this 24<sup>th</sup> House of Players meeting. \* Raps Gavel \* At this time, please switch back to your appropriate channels.
