The Press Officer Coolkidss

The Art Designer Gecc

The TeamSpeak Operator Tauerpower

The League of Legends Tournament Director VizuaL

The Realm of the Mad God Guild Master Clonus

The Team Fortress 2 Tournament Director ASAP Tyca

Transition: We will open tonight's meeting with the Department Updates. Whereas we would normally proceed with the system's largest department, the League of Legends Department, their Department Chairman, Mr. ChewOnDiss is unable to be here due to the arise of a last-minute emergency. We will instead move to the system's second largest department, the Realm of the Mad God Department for their Department Update. Please welcome their Department Chairman, Mr. SoulThief to the floor.

Realm of the Mad God Update as Read by SoulThief

Good evening, Villoux House of Players; as your Realm of the Mad God Department Chairman, it gives me great pride to bring you this month's Realm of the Mad God Department Update speech.

You may have noticed that we have a new face around the system this month, making an effort to make the Villoux Server System a much happier and stronger environment. The user I am referring to, Mr. McNaughton, has joined Villoux's staff as the new Realm of the Mad God Tournament Director! He will be assisting me in selecting the details of the monthly Dungeon Runs tournament, as well as helping to organize the event.

It makes me very pleased to announce that the Realm Department's userbase has taken a sharp turn for the better. Not only have we had an increase in overall userbase, but we have also had an increase in diversity within the department. Throughout the last month, we have seen news users from Denmark, Estonia, and the Netherlands whilst still maintaining our users from Bahrain, Belgium, and the United Arab Emirates. It just again reminds us of how incredible the Internet is at uniting people across the globe through such a simple tool. I would like to personally thank the members from all over the system that have helped me in expanding our department in this otherwise difficult time in the system.

I hope that the Realm Department can aid the other departments in rebuilding their respective userbases, and am excited to work with other Department Chairmen through the Chairman Committee to commit to rebuilding Villoux to our glory days.

At this time, I will thank the House of your attention, and I hereby conclude my Realm of the Mad God Department Update. I yield my time to

the floor, and as always, look forward to any questions, comments, or concerns that you may have.

Transition: Thank you for your update, Mr. SoulThief. The House will now open the floor to any questions, comments, or concerns in regards to the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message, not a poke, with “question, comment, or concern”, respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system’s Realm of the Mad God Department, we will now move the system’s third largest department, the Minecraft Department. As Minecraft Department Chairman, it gives me pleasure to provide you the Minecraft Department Update.

Minecraft Update as Read by Dr. Baskerville

Good evening my fellow members of the House of Players. I am delighted to announce that our Minecraft Department has been tirelessly working on a plan of recovery after our many months of inactivity. Not only have I overseen and participated in the recovery plans, I have also actively engaged in the actual execution of the plans. I must say, that they have all gone much better than I had expected.

Our Simple Survival server, Basic Craft, has recently been granted to the former Baskerville Assistant, Mr. Zombieslayer935 after serving in his former position for nearly two years. As the new Server Head, Mr. Zombieslayer has already readied the server for a release within the first two weeks of July due to assistance from the System Coding Department and the Executive System Press Officer Veteran, Mr. KingKiro. I look forward to seeing this old fan-favorite server being re-released to the public, and cannot wait to see what type of users it will bring to the system.

Also preparing for release is Villoux’s factions/PVP server, Craft of the Titans. The Server Head of Craft of the Titans, Mr. SoulSniper has finalized everything from his server due the assistance of the honorable Grand Council Member, Mr. Cronus and the Executive System Coder, Mr. Icytheory43. Along with Basic Craft, I anxiously await to marvel in the success of this server.

Villoux's Pokémon role-play server, Aexon Pixelmon, is set to begin production early next month, and plans on either a late-July or early-August release. The server is now under the charge of the honorable Grand Council Member, Mr. Jdaca after he served as Snowflake and Vivo Pixelmon's Head Admin for over a year while serving as Villoux's Executive System Coder. Mr. Jdaca felt that the server needed anew face and a new name before release, so he has been authorized to change the Pixelmon's server-name from Vivo to Aexon. He has also been elected President of the Pixelmon Expansion Board, which will work on both constructing the server and making it the best server it can possible be after production.

Finally, Villoux's most popular and most in-demand Minecraft server, the drug role-play server Drug Craft, is making final preparations for a public release tomorrow. However, I have convinced the Server Head, the honorable Grand Council Member, Mr. Cronus, to allow the server to be released to the Villoux public after the House of Players meeting tonight. I know that the greater Minecraft community will be in uproar over the server's return, but I think it only fair to allow the community that started and sustained Drug Craft since 2011 first dibs. I do hope that you will all join me for a jolly time on the server after the meeting tonight.

Before I conclude my speech, I wish to thank all members of the system that have helped make all of this progress possible; most notably: the Pixelmon Expansion Board and the honorable Grand Council Member, Mr. Jdaca for their efforts on building Aexon Pixelmon; the Grand Council Veterans, Mr. Sammygman and Mr. Sullivan, the Baskerville Advisor, Mr. Alch, the Minecraft Server Heads Mr. SoulSniper and Mr. Zombieslayer935, the Baskerville Advisor Manager, Mr. Steve, and the honorable Grand Council Member, Mr. Cronus for their long and tiring efforts on Drug Craft; and, finally, a special thanks to my Baskerville Cabinet, namely my Assistants Ms. DinoEme and Mr. Earl554, the Press Manager, Mr. Flogknw, and the Executive System Coder, Mr. Icytheory43 for all of their contributions to my department. With that being said, I hereby conclude my Minecraft Department Update. I look forward to your questions, comments, and concerns.

Transition: The House will now open the floor to any questions, comments, or concerns in regards to the Minecraft Department. If you have a question, comment, or concern, please send me a private message, not a poke, with "question, comment, or concern", respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system's Minecraft Department, we will now move the system's smallest department, the Team Fortress 2 Department. Please join me in welcoming their Department Chairman, Mr. Sweetheaar to the floor.

Team Fortress 2 Update as Read by Sweetheaar

Good evening, Villoux House of Players. The month of June has been a relatively slow month for my department. However, before I discuss this month, I would like to take a brief moment to go back to last month and discuss our tournament. May's 22nd TF2 Tournament had a better turnout than any other tournament during my reign as Department Chairman, and I must say that it was, per result, the most fun. Therefore, I strongly encourage all members of the House to register for the next TF2 tournament, which will be held tomorrow at 8:00PM US Central time. The winner of last month's tournament was the Executive TeamSpeak Operator Veteran, Mr. Pwnzy who played as the Blu Team's Demoman. Surprisingly enough, Mr. Pwnzy was the first Demoman to ever be named Tournament Champion.

I would additionally like to mention that my department is still in dire need of Tournament Directors. If you have any recommendations, please contact me after tonight's meeting. Regrettably, not much else has occurred in my department this month, which means that at this time I conclude my Department Update. Thank you for your time.

Transition: Thank you for your update, Mr. Sweetheaar. The House will now open the floor to any questions, comments, or concerns in regards to the Team Fortress 2 Department. If you have a question, comment, or concern, please send me a private message, not a poke, with "question, comment, or concern", respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system's Team Fortress 2 Department, that now concludes the Department Update portion of tonight's meeting. At this time, we will move to the Executive TeamSpeak Operator, Mr. Nexemonsta for his TeamSpeak Announcement.

TeamSpeak Announcement as Read by Nexemonsta

Good evening Villoux House of Players; for those of you that do not know: my name is Mr. Nexemonsta, and I serve as Villoux's Executive TeamSpeak Operator. It has been a long-time tradition for the Executive TeamSpeak Operator to deliver a "TeamSpeak Announcement" to the House of Players, in which I give a brief update on the TeamSpeak server's activity; similar to a Department Update. In recent months, the TeamSpeak Announcement has been absent from House of Players meetings, but from this month forward it shall resume as a means of broadcasting TeamSpeak updates to the members of the House. The month of June has followed the same trend of the month of May in that TeamSpeak traffic has continued to decrease. Fortunately, the Realm of the Mad God Department and their Department Chairman and King of TeamSpeak, Mr. SoulThief have been working very hard to substitute the lack of users from the Minecraft and Team Fortress 2 Departments. Furthermore, the Minecraft Department's launch of three new servers should cause a dramatic increase in activity within that department. As of right now, the average TeamSpeak userbase has been in the upper thirties or lower forties, which is nearly 50% of the average userbase in this time last year. I challenge the Department Chairmen and their respective staffs to utilize the month of June and bring as many users as they possible can to our TeamSpeak server. As a community, Villoux is heavily reliant on TeamSpeak as a base of communication, so it is absolutely crucial to ensure that our TeamSpeak server reflects the size of our other properties.

In addition to increasing the total number of users online, I am also hoping to increase the number of users working for the Operation Department. As of late, the TeamSpeak Operators have been under-staffed, and I am very interested in raising our numbers of staff members. I encourage not only Department Chairmen, but also all members of the House to send me recommendations of users that they feel would make exemplary Operators. Any user that shows signs of maturity, problem-solving skills, or patience is of interest to my department and me; therefore, I again press you to send me recommendations for potential Operators. That being said, I conclude my TeamSpeak Announcement and thank you for your time.

Transition: Thank you for your Announcement, Mr. Nexemonsta. That then concludes all topics of conversation for this meeting, and we will now move to the Closing Ceremonies.

Closing Ceremonies as Read by Dr. Baskerville

Good evening to you all again. I would like to take this time to announce this month's Friend of Villoux Award recipient. As you know, the Friend of Villoux Award is an award we give out every month to a particular member of the system that has gone above and beyond in their respective position. It pleases me very much to announce that this month's Friend of Villoux Award is none other than the TeamSpeak Operator, Mr. Ace. Mr. Ace is an essential member of the Operation Department, and is always quick to jump to anyone's aid when called on. As always, thank you very much for all of your hard work and dedication. Before we conclude this month's Friend of Villoux Update, I would like to give a special update about next month's Friend of Villoux. July's Friend of Villoux will be whichever member of the system's staff is able to bring in the most new users to the TeamSpeak server. In order to report new users that you have brought to the TeamSpeak server, simply send me a message listing their usernames and whichever user submits the most new usernames, will be named Friend of Villoux. The final date of submission will be Wednesday, July 23 – one day before July's House of Players meeting. With that being said, on behalf of the system, I would additionally like to extend my heartfelt thanks and appreciation to you – the members of Villoux's staff that make the system a place where Excellency is your only option. With that mind and in heart, I, Dr. T. Baskerville, do hereby adjourn this 24th House of Players meeting. * Raps Gavel * At this time, please switch back to your appropriate channels.
