The TeamSpeak Operator MystiA for Time Zone Differences

The TeamSpeak Operator DemonKingz for Time Zone Differences

The Operative Manager Ace for Time Zone Differences

The Realm of the Mad God Tomb Master Kaidren for Time Zone Differences

The Minecraft Server Head Zombieslayer935 for Vacation

The Grand Council Member Crokeykid for Time Zone Differences

The Grand Council Member Jdaca for Personal Issues

Unexcused Absentees:

Transition: We will open tonight's meeting with a special TeamSpeak Announcement per regards an attack on Villoux's TeamSpeak server early in the morning on August 14, 2014.

TeamSpeak Announcement as Read by Dr. Baskerville

In the early morning of August 14, 2014, the now former Team Fortress 2 Department Chairman, Mr. Sweethear executed an attack on Villoux's TeamSpeak server by abusing his permissions to edit, rearrange, and delete channels. His attack lasted from approximately 2:00 – 3:00 AM that morning. At approximately 7:20 AM, I was made aware of the attack and issued the following statement: "My fellow Villouxians, the system has undergone a most severe attack by the former Team Fortress 2 Department Chairman, Sweethear. For the time being, the TeamSpeak server has reverted back to its format in March of 2014, meaning that all channels and badges have reverted back to that date. The Cabinet and the Council will be working around the clock to restore Villoux to its present order and glory, but will need a bit of time to do so. I request that you refrain from messaging me concerns about your rank or guild. I request patience and cooperation during this time, and I am certain that I shall receive it. We will begin restoring the server at 2:00 PM USCT. Much appreciation my friends."

At 2:00 PM, I immediately began working on restoring all channels to their proper order, rewriting all channel descriptions, republishing all banners, reposting all links to website, relocking all private channels, and reinstating all members to their proper position. Fortunately, with the assistance of my Cabinet and the Grand Council Member, Mr. Cronus, we were able to fully restore Villoux's TeamSpeak server by 5:00 PM August 15, 2014, just one day after the attack.

In punishment for his act of treason against the system, I executed my authority to use the Varacka Ordinance and issued a System Ban against Mr. Sweethear on August 16, 2014. Whereas generally speaking, no one user has the permission to issue a System Ban against another user, the Chief of Staff is granted the ability to do so in certain situations with the Varacka Ordinance, which states: "If a user attacks the system or members of the system and violates this ordinance, a System Ban is required to be issued by the Villoux Chief of Staff."

In order to help better prepare the system to recovery more quickly from some similar attack should one happen in the future, our TeamSpeak server will be updated once a month, opposed to quarterly. Additionally, the Grand Council is looking into the possibility of granting certain handpicked Grand Council Veterans the same TeamSpeak permissions as a TeamSpeak Operator, meaning that they have the ability to ban a user should the need arise. Whereas at this stage this is merely an idea, if the Grand Council finds it favorable, it will be worked into the TeamSpeak Ordinance by the end of next month. Furthermore, the TeamSpeak permissions of all Department Chairmen have been reduced moderately to limit the amount of damage that they could potentially cause.

I wish to highly stress the fact that another attack on Villoux's TeamSpeak server of this scale is nearly impossible. Throughout my five years as serving as Villoux's Chief of Staff, I have never seen such an attack launched on the TeamSpeak server by another System Official, therefore I find the possibility of another attack to be extraordinarily low. I do, however, wish to thank the system's response to the attack. Everyone remained calm and patient, and managed to retain a formal decorum. I would especially like to thank the Executive Baskerville Assistant Veteran, Mr. Penguin, the Executive TeamSpeak Operator Veteran, Mr. Pwnzy, the Baskerville Advisor, Mr. Crepim, the Baskerville Advisor Manager, Mr. Alch, and the Realm of the Mad God Department Chairman, Mr. SoulThief for their swift efforts to keep me updated and informed on the matter. Before I conclude, I would like to give the regular TeamSpeak Update.

Traffic on Villoux's TeamSpeak server has increased by nearly 20% thanks to the Commercialist, Mr. SLVRDLLR. Whereas Mr. DLLR releases videos advertising Villoux's Realm of the Mad God Department, both the League of Legends and Minecraft Departments have reported benefiting from the new traffic. The Chairman Committee looks very forward to furthering our partnership with Mr. DLLR, and predicts similar numbers for next month. It is also very worth noting that the Minecraft server, Craft of the Titans has brought in a substantial number of new TeamSpeak users. I would like to thank the Server Head of Craft of the Titans, Mr. SoulSniper, and his staff for their contributions to the increased traffic as well.

The Executive TeamSpeak Operator, Mr. Nexemonsta has recently begun his freshman year in college, attending New York University.

Unfortunately, this means that he will be retiring from his position as Executive TeamSpeak Operator. He has named his heir the Operative Manager, Mr. Ace and the Grand Council looks very forward to instating Mr. Ace into his new position at the end of next month. Whereas Mr. Nexemonsta's retirement will begin effective immediately, he will not be officially retired nor will Mr. Ace be officially instated until September's Grand Council meeting, since September, along with January and May, is one of the system's three work months. As mentioned, September is a work month, therefore a System Census will be held. I would like to challenge each Department Chairman to beat their numbers from May's census, and try to match numbers from September 2013's census. Throughout the next month, the system will certainly be extremely busy, so I expect all staff to be giving 110%. With that being said, I hereby conclude this special TeamSpeak Announcement.

Transition: The House will now open the floor to any questions, comments, or concerns per regards this special TeamSpeak Announcement. If you have a question, comment, or concern, please message me "question, comment, or concern", respectively. Again, this should be a private message; not a poke.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the this special TeamSpeak Announcement, we shall now begin the Department Updates portion of tonight's meeting. At this time, I would like to welcome the Chairman Committee Speaker and Department Chairman of the League of Legends Department, the system's largest department, Mr. ChewOnDiss to the floor.

League of Legends Update as Read by Chew On Diss

Good evening Villoux House of Players, as the Chairman Committee Speaker and Department Chairman of the League of Legends Department, it gives me great honor to present this month's League of Legends Department Update. Our 1v1 tournament this month was quite exciting. Of the eight users that participated in the tournament, all fought valiantly; however, in the end, yours truly was named champion of the 8th 1v1 Tournament. Whereas our department was prepared to host a 5v5 Tournament this month, Riot's servers went down just before the tournament was scheduled to begin. Despite postponing the tournament for nearly 45 minutes, the servers remained either down or too laggy to play on, therefore the 22nd 5v5 Tournament has been rescheduled for next month. As always, I strongly encourage all members of the House to register for both of our monthly tournaments in order to participate in a great community-bonding event.

Though I have greatly appreciated the assistance of both the Baskerville Advisor, Mr. Dragonride and the Executive TeamSpeak Operator Veteran, Mr. Pwnzy, I am glad to state that I have hired a new Tournament Director in my department, the former Team Fortress 2 Server Head, Mr. Tixie. Mr. Tixie boasts a Silver 1 ranked status, and has an impressive history and vast knowledge of the game; I think that he will be a valuable member of my staff. That concludes my League of Legends Department Update, however I do have a few notifications I would like to deliver as Chairman Committee Speaker.

First of all, obviously with the demotion of the Team Fortress 2 Department Chairman, Mr. Sweethear that department has been left in a state of near anarchy. Fortunately, the former Baskerville Assistant, Mr. Zalzam has been named Server Head of the TF2 Department's Main Server. The Chairman Committee plans to train Mr. Zalzam as the Main Server's Server Head so that he will be able to accept an offer as TF2 Department Chairman at September's Chairman Committee meeting. The Committee wishes you the best of luck, Mr. Zalzam, and we look very forward to watching you grow your department. Secondly, the Chairman Committee is pleased to announce the addition of at least one, but possibly two, new departments next month. Whereas we are not yet certain which one or possibly two of the new departments we will receive, we do know that it will be between Counter Strike, Runescape, and Rust. The Committee has

already seen an overwhelmingly positive response to the addition to a Counter Strike Department, however we are interested in the House's opinion on the other two possibilities, and the order in which they would be preferred. I encourage you to make a comment at the conclusion of my speech stating which department you most hope to see in the system, and why. Finally, as the right honorable Villoux Chief of Staff, Dr. Baskerville mentioned, there will be a System Census next month. I would like to thank, in advanced, both the Chairman Committee and the Baskerville Cabinet for the hard work and tireless effort that they will no doubt put forth throughout the course of next month. With that being said, I hereby conclude my League of Legends Department Update. I look forward to your questions, comments, and concerns.

Transition: The House will now open the floor to any questions, comments, or concerns in regards to either the League of Legends Department, or the Chairman Committee opinion poll. If you have a question, comment, or concern, please send me a private message, not a poke, with "question, comment, or concern", respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to either the system's League of Legends Department or the Chairman Committee poll, we will now move to the Realm of the Mad God Department, the second largest department, for their Department Update. Please welcome the Realm of the Mad God Guild Master, Mr. Roster to the floor.

Realm of the Mad God Update as Read by The Russian Roster

Good evening Villoux House of Players. Unfortunately, the Realm of the Mad God Department Chairman, Mr. SoulThief is unable to attend tonight's meeting due to work related issues. I am honored to have been selected to represent the department on his behalf, and shall proceed to present his Realm of the Mad God Department Update:

Good evening, Villoux House of Players, as your Realm of the Mad God Department Chairman, it gives me great pride to bring you this month's Realm of the Mad God Department Update speech.

Firstly, I would like to share a few details of my department's growth over the past month. As the right honorable Villoux Chief of Staff, Dr. Baskerville mentioned, we have seen a sharp increase in the amount of active users. The first and biggest source of this surge was via the Commercialist, Mr. SLVRDLLR's YouTube video featuring himself, the Grand Council Member Veteran, Mr. Flosion, the TeamSpeak Operator, Mr. Qmen, and the Executive TeamSpeak Operator, Mr. Nexemonsta. All of those gentlemen did a wonderful job representing Villoux, and I thank them. A secondary contributing factor was the former Commercialist, Mr. Whopssiii's YouTube video; they continue to garner new users. The final major contributing factor to our surge of userbase is thanks to my own personal TwitchTV livestream, in which Mr. DLLR made a special appearance.

Moving on, since the last meeting, I was unfortunately unable to maintain my own guild, however the Guild Master of the Drugs Guild, Mr. Roster stepped up to the challenge and was able to successfully replace my failed Executive Guild. To join the Drugs Guild, please contact either Guild Master, Mr. Roster or the Radio Villoux DJ, Mr. Templox.

Finally, with the increased growth in my department, I would like to personally thank the TeamSpeak Operation Department and the Operative Manager, Mr. Ace for their outstanding work this month in helping me deal with the trolls and other troubles that come via the law of averages. Thank you very much, and keep up the good work!

At this time, I will thank the House of your attention, and I hereby conclude my Realm of the Mad God Department Update. I yield my time to the floor, and as always, look forward to any questions, comments, or concerns that you may have.

Transition: Thank you for your update, Mr. Roster. The House will now open the floor to any questions, comments, or concerns in regards to the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message, not a poke, with “question, comment, or concern”, respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system’s Realm of the Mad God Department, we shall move to the Minecraft Department, the system’s third largest department.

Minecraft Update as Read by Dr. Baskerville

As Minecraft Department Chairman, it gives me pleasure to present to you this month's Minecraft Department Update. At the beginning of this month, my department had a soft-release of our Factions/PVP server, Craft of the Titans. The release proved to be a wonderful success, and we look forward to working with the Press Department in the coming month to further increase the number of users playing on that server. I would like to thank and congratulate the Server Head of Craft of the Titans, Mr. SoulSniper and his staff for a job well done.

Our simple survival server, Basic Craft has been decidedly repurposed to serve as a Villoux community server, opposed to a large public server. This means that Basic Craft will not be expected to compete with our other Minecraft servers, as it will instead be intended to simply service the desires of the Villoux public. I highly encourage all members of the House seeking a simple, yet enjoyable time on a Minecraft server to test Basic Craft. The Server Head of Basic Craft, Mr. Zombieslayer935 and his admin, the Executive Baskerville Assistant Veteran, Ms. Madison have truly succeeded in turning Basic Craft into the server that Villoux needs. I have been requested to issue a special thanks to the Baskerville Assistant, Mr. xCreeperx for his contributions to the server's release as well.

Villoux's drug role play server, Drug Craft is technically capable to be released to the Villoux public, however the Server Head of Drug Craft, the honorable Grand Council Member, Mr. Cronus wishes to keep the server private for some time more in order to fix all bugs. Additionally, the Grand Council Member Veteran, Mr. Smudd has begun aiding Mr. Cronus in revising large portions of the server's map. I look forward to seeing what builds Mr. Smudd graces the server with, however I do wish to publically urge Mr. Cronus to get the server released as soon as possible.

Axon Pixelmon, Villoux's Pixelmon server, will remain inactive and closed until either the honorable Grand Council Member, Mr. Jdaca resumes his activity within the system, or another suitable Server Head is named. I do not foresee Axon Pixelmon being released this year.

Before I conclude my Minecraft Department Update, I would like to issue a special thanks to both Minecraft Server Heads, Mr. Zombieslayer935

and Mr. SoulSniper for fully completing their servers, and to the Executive System Coder, Mr. JynX123 for all of the major contributions that he makes. At this time I conclude my Minecraft Department Update and would be more than happy to entertain any question, comments, or concerns.

Transition: The House will now open the floor to any questions, comments, or concerns in regards to the Minecraft Department. If you have a question, comment, or concern, please send me a private message, not a poke, with "question, comment, or concern", respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regards to the system's Minecraft Department, we shall hereby conclude the Department Updates portion of tonight's meeting, and move to the Closing Ceremonies.

Closing Ceremonies as Read by Dr. Baskerville

Good evening to you all again. I would like to take this time to announce this month's Friend of Villoux Award recipient. As you know, the Friend of Villoux Award is an award we give out every month to a particular member of the system that has gone above and beyond in their respective position. It pleases me very much to announce that this month's Friend of Villoux Award is none other than the Commercialist, Mr. SLVRDLLR. Mr. DLLR has managed to almost single handedly increase our TeamSpeak server's traffic by nearly 20% in less than month. On behalf of the Realm of the Mad God Department, the TeamSpeak Operation Department, the Chairman Committee, and the Grand Council, thank you for your contributions, Mr. DLLR. With that being said, on behalf of the system, I would additionally like to extend my heartfelt thanks and appreciation to you – the members of Villoux's staff that make the system a place where Excellency is your only option. In the words of Canadian Prime Minister, Stephen Harper "Having hit a wall, the next logical step is not to bang our heads against it." With that mind and in heart, I, Dr. T. Baskerville, do hereby adjourn this 29th House of Players meeting. * Raps Gavel * At this time, please switch back to your appropriate channels.
