**Transition: We will open tonight's meeting with the Department Updates, starting with the system's largest department, the Realm of the Mad God Department. Presenting the Realm of the Mad God Department Update is the Baskerville Assistant Manager, M. Jellysam.**

*Realm of the Mad God Update as read by Jellysam*

Thank you, Dr. Baskerville. Unfortunately, our Realm of the Mad God Department Chairman, Mr. Meowzo, is unable to attend this evening's meeting due to his travels, however I will do my best to present the update in his absence.

The month of June saw the departure of one of Villoux's most longstanding guilds, the Luminarium Guild. First joining Villoux in January of 2015, the Luminarium Guild had been a consistent source of European users to Villoux's Realm of the Mad God department. The guild suffered a mass loss of members in September of 2015, which resulted in the guild's removal from Villoux. It regained enough members to rejoin Villoux in April of this year, but this month its numbers stumped back to what they had been in September. It is my hope that the guild's leadership will work on recovering and reenergizing its base so that the guild can join Villoux yet again in future.

Though our department did see the loss of one guild, it does still maintain three active guilds – the Melons Guild, the Replacement Sword Guild, and the Basker Villians Guild. Of these three, the Melons Guild is by far the most active with a max capacity of fifty in-game guild members, and well over thirty active Villoux users. On behalf of Mr. Meowzo and the Realm of the Mad God Department, I would like to congratulate the Guild Master of Melons, Mr. Wolfmanono for a job well done. I feel I should also recognize and thank the guild's founder and former Guild Master who continues to remain very active in Melons' administration, the Operative Manager, Mr. COLDHEARTS.

Transitioning away from Villoux's Realm guilds, there is much to discuss in regards to Villoux's Realm servers. Over the course of the past month, two private Realm of the Mad God servers have been seen in Villoux – Crispy's Realm and Villoux's Realm. The first to join Villoux was Crispy's Realm, a small private server administrated by Mr. Cperalta. Mr. Cperalta merged his server into Villoux and the server existed as a system operated server for a few weeks. After several administrative blunders and a lack of time commitment from Mr. Cperalta, Mr. Meowzo and the right honorable Villoux Chief of Staff, Dr. Baskerville made the decision to close Crispy's Realm and launch a private server completely administrated by Villoux – Villoux's Realm. Though it is still a work in progress, the server has already managed to maintain the interest generated by Crispy's Realm whilst managing to distance itself from Crispy's Realm's poor administration. The Server Head of Villoux's Realm, Mr. Lunacy, has been working with the System Coder, Mr. WhyteOwl to create custom items and mobs for the server. For the time being, Mr. Lunacy will continue to host the server from his own personal computer, but once the server's modification coding has been completed, the Coding Department will transfer Villoux's Realm to a private VPS, making it available 24/7. The VPS should be up and running within the next week,

so please make plans to come try Villoux's Realm then. With that being said, I hereby conclude this month's Realm of the Mad God Department update and thank you for the privilege.

**Transition: Thank you for the update, M. Jellysam. We will now open the floor to any questions, comments, or concerns per regards the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**There appear to be no further questions, comments, or concerns per regards the Realm of the Mad God Department. We would generally move to the system's second largest department, the League of Legends Department, however due to that department's lack of a Department Chairman, I will cover its Department Update in my Closing Ceremonies. At this time, we will now move to the system's third largest department, the Counter Strike Department. Presenting the Counter Strike Department Update on behalf of the Counter Strike Department Chairman, Mr. BlubberSocks is the Executive System Builder, Mr. Sammygman.**

## *Counter Strike Update as read by Sammygman*

Good evening, Villoux House of Players. I am glad to present the Counter Strike Department Update on behalf of my friend and colleague, Mr. Blubber Socks, who was unable to attend tonight's meeting due to work-related issues. Regrettably, there is not much to discuss in regards to the Counter Strike Department due to a massive lack of organized teams across our department. Since our department's main focus is hosting tournaments and since the tournaments require teams, we have been unable to host European, North American, or Oceanic tournaments this past month. Our lack of teams is widely due to the Counter Strike Department still being a relatively new department within Villoux combined with the fact that the Executive System Press Officer, Mr. IronRain is on an indefinite hiatus due to a computer hard drive failure. Without an active Press Department to help advertise, it is becoming increasingly difficult to bring new teams to the system. Despite these major setbacks, Mr. Blubber Socks has still been working diligently in building his department. His immediate focus is hiring regional Tournament Masters to plan and administrate the European and Oceanic tournaments. He has candidates in mind for both positions, but wishes to hold a final interview before publicizing his decisions. With the assistance of the regional Tournament Masters and the regional Tournament Directors they will hire, Mr. Blubber Socks hopes to resume hosting all three regional tournaments next month. In the meantime, he requests and appreciates the patience that has been provided to him and his department. Thank you.

**Transition: Thank you for the update, Mr. Sammygman. We will now open the floor to any questions, comments, or concerns per regards the Counter Strike Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**There appear to be no further questions, comments, or concerns per regards the Counter Strike Department. We will now move to the system's smallest department, the Minecraft Department. Presenting the Minecraft Department Update on behalf of the Minecraft Department Chairman, Dr. Afecter is the Executive System Press Officer, Mr. IronRain**

## *Minecraft Update as Read by IronRain*

Good evening, Villoux House of Players. As the Executive System Builder, Mr. Sammygman mentioned earlier due to a hard drive failure, I have been unable to be active on Villoux for the past few weeks, but I am pleased to be able to join you at tonight's meeting via my mobile client. Since the Minecraft Department Chairman, Dr. Afecter is away this week due to a vacation, it is my pleasure to present this month's Minecraft Department Update on his behalf. Throughout the past month, Dr. Afecter has made the decision to remove the Server Heads of two of our Minecraft servers, Villoux's prison server, the Villoux Penitentiary and Villoux's community survival server, the Villoux Township. Upon the removal of the Server Head of the Villoux Penitentiary, Dr. Afecter closed the server entirely opposed to trying to hire a new Server Head. He is also strongly considering closing the Villoux Township so that he can direct all of the department's focus on his server, Villoux's FeedTheBeast Infinite server, Project Onyx: Infinite. Whereas he was expecting the server to be released this month, production fell behind schedule due to his own personal issues. He can, however, say with confidence that the server will be ready for release in July. With that being said, I hereby conclude this month's Minecraft Department Update. Thank you.

**Transition: We will now open the floor to any questions, comments, or concerns per regards the Minecraft Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**There appear to be no further questions, comments, or concerns per regards the Minecraft Department, therefore we will end the Department Update portion of tonight's meeting and begin the Closing Ceremonies.**

## *Closing Ceremonies as read by Dr. Baskerville*

Good evening, my fellow members of the Villoux House of Players. I would like to extend my appreciation to you for joining us tonight for this most important longstanding tradition. As mentioned earlier in tonight's meeting, I would like to take just a moment to discuss our League of Legends Department. After April's Grand Council meeting, the League of Legends Department has been without a Department Chairman, meaning that there have been no tournaments hosted in the department and overall activity is at a bit of a standstill. Whereas the Grand Council and I are working diligently to find a new Department Chairman, we are very open to suggestions. If you have interest in this position or have a recommendation for a person that you feel would be interested in the position, please contact me after tonight's meeting.

At this time, I will open the floor to any general questions, comments, or concerns. If you have a question, comment, or concern that did not fit into any of our previous sessions, please feel free to send me a private message with "question", "comment", or "concern", respectively.

I would like to take this time to thank and announce this month's Friend of Villoux. As you know, the Friend of Villoux award is a monthly award given to a member of Villoux's staff that has gone above and beyond in their respective field. It gives me great pleasure to announce that this month's Friend of Villoux is the Realm of the Mad God Server Head, Mr. Lunacy. Mr. Lunacy has worked relentlessly in the development of his server and never fails to model of efficiency and professionalism. Other honorable mentions for this month include the Baskerville Assistant, Mr. Staek and the Baskerville Advisor, Mr. Nexa. I would also like to take this opportunity to thank you – the hard working members of Villoux's staff that make Villoux a system in which "excellence is your only option". With that in mind and in heart, I, the Right Honorable Villoux Chief of Staff, Dr. Baskerville do hereby adjourn this 49<sup>th</sup> meeting of the Villoux House of Players. Please return to your appropriate channels.
