Transition: We will open tonight's meeting with the Department Updates, starting with the system's largest department, the Realm of the Mad God Department. Presenting the Realm of the Mad God Department Update is the Realm of the Mad God Server Head, Mr. Lunacy.

Realm of the Mad God Update as read by Lunacy

Thank you, Dr. Baskerville. Unfortunately, our Realm of the Mad God Department Chairman, Mr. Meowzo, is unable to attend this evening's meeting due to his travels, however I will do my best to present the update in his absence.

The first topic that I will address is the current state of the Villoux guilds. Throughout the month of July, there have been several changes to the number of guilds that we sponsor. Mr. Meowzo and I are very pleased to welcome two new guilds, the Average Guild and the Nuke Cola Guild, as well as their respective Guild Masters, Mr. Pain and Mr. PvtPuncake, respectively. In addition to these two new guilds, both the Melons Guild and the FallenHeroes Guild continue to provide users to our TeamSpeak server. Unfortunately, this month did see the disbandment of two previously sponsored Villoux guilds – the Drama Alert Guild, which merged with the Nuka Cola Guild, and The Basker Villians Guild, which was disbanded due to lack of members. With four guilds going strong, Mr. Meowzo is very pleased with Villoux's presence on production Realm of the Mad God.

Moving away from PROD and into our private server realm, our own private server, Villoux's Realm, continues to do astronomically well. Several minor bug fixes, drop rate changes, and new items have been amongst the server's most recent updates. We have a large update planned for tomorrow which will make the game's hardest dungeons much easier to run, add many more new items, two new events to run, a buff to vitality and wisdom stats, and other bug fixes. In the near future, we also plan on introducing an entirely new class completely custom-made for Villoux's Realm. More information about the update tomorrow and new class will be revealed throughout the next few days. All of these new updates and changes have been possible due to an increase of RAM on our VPS, which has overall improved the server's performance. Finally, I would like to extend my sincerest thanks to the TeamSpeak Operator, Mr. LegionAbid who works very efficiently in encrypting our SWF file, and the System Art Designer, Mr. Antiodte for his sprite contributions.

Before I conclude my update there is rather an elephant in the room that Mr. Meowzo requested I address – the demotion and ban of the former TeamSpeak Operator, Mr. Scrub Lord Corey. Mr. Corey was and still is a much beloved member of the Realm of the Mad God community, which is why his recent 37-day ban from the TeamSpeak server caused much upheaval within our department. Typically, it is not protocol for the TeamSpeak Operation Department to discuss bans with other users, but the Executive TeamSpeak Operator, Mr. Oupas has agreed to make an exception in this case. To provide a bit of backstory to the ban, the user, Mr. RedGamesII scammed Mr. Corey's younger brother, the user, Mr. Cyenare. When Mr. Cyenare reported the incident to Mr. Corey, Mr. Corey proceeded to issue a one-day ban against Mr. RedGamesII, as in accordance to the Calebbean Clause of the TeamSpeak Ordinance. Mr. Corey, however, decided

to go a step further and take Mr. RedGamesII's IP from the TeamSpeak server's ban list, which he was only able to see due to his permissions as a TeamSpeak Operator. By taking Mr. RedGamesII's IP, Mr. Corey violated the Ruince Clause of the TeamSpeak Ordinance by committing an "Abuse of Permissions". Essentially, he used permissions that he was not entitled to use at the time. Mr. Corey then proceeded to send Mr. RedGamesII's IP to another user and request that that user DDoS him. By distributing Mr. RedGamesII's IP, Mr. Corey violated the Warriorscayme Clause of the TeamSpeak Ordinance, which specifically defines the act of distributing IPs as an act of "Distribution of Private Information". The Elly Clause of the TeamSpeak Ordinance, which discusses ban durations, states that "Abuse of Permissions" stands at a thirty-day ban, and "Distribution of Private Information" stands at a week ban. When combined, you get a 37-day ban, which is what Mr. Corey was issued. The decision to issue that ban duration against Mr. Corey came from Mr. Oupas himself, who unbiasedly reviewed the situation and rendered a fair judgement. Though Mr. Corey is much beloved throughout our community, Mr. Oupas knew that he could not allow such a serious crime to go unpunished. Once Mr. Corey's ban expires, he will be welcomed back into Villoux, but will not be allowed to serve as a TeamSpeak Operator again. Despite being fond of Mr. Corey, Mr. Meowzo and Mr. Oupas request that you view the situation without bias towards Mr. Corey and hold no resentment towards either of them, or their respective departments, and with that being said, I do hereby conclude this month's Realm of the Mad God Department Update. Thank you for the opportunity.

Transition: Thank you for the update, Mr. Lunacy. We will now open the floor to any questions, comments, or concerns per regards the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

There appear to be no further questions, comments, or concerns per regards the Realm of the Mad God Department. We would generally move to the system's second largest department, the League of Legends Department, however due to that department's lack of a Department Chairman, I will cover its Department Update in my Closing Ceremonies. At this time, we will now move to the system's third largest department, the Counter Strike Department. Presenting the Counter Strike Department Update is the Counter Strike Department Chairman, Mr. Blubber Socks.

Counter Strike Update as read by Blubber Socks

Good evening, Villoux House of Players. I am glad to present the Counter Strike Department Update. Regrettably, there is not much to discuss in regards to the Counter Strike Department due to a massive lack of organized teams across our department. Since our department's main focus is hosting tournaments and since the tournaments require teams, we have been unable to host European, North American, or Oceanic tournaments this past month. Our lack of teams is widely due to the Counter Strike Department still being a relatively new department within Villoux combined with the fact that the Executive System Press Officer, Mr. IronRain is on an indefinite hiatus due to a computer hard drive failure. Without an active Press Department to help advertise, it is becoming increasingly difficult to bring new teams to the system.

Despite these major setbacks, we have been making strides in establishing a monthly European tournament. We now have four European teams, ranging from the United Kingdom, Portugal, Israel, and Ireland. With assistance from my two European Tournament Directors, Mr. WildBurger and Mr. Reptune, we plan to host a tournament next month. I am also fortunate enough to work with one North American Tournament Director, Mr. Flux, but the two of us are unable to host a tournament alone. I am in the process of reviewing one North American Tournament Director application, but until we have at least three North American Tournament Directors, I would not anticipate a tournament. Though we also suffer from a lack of Tournament Directors in Oceania, the Oceanic Tournament Master, Mr. Ham has been working on filling those roles. Now that we have a fuller Press Department and a new Press Manager in the form of Mr. Steve, all of my staff and I hope to have the resources that we need in order to further establish our department.

Before I conclude, I would like to take a moment to recognize and thank our System Press Officers, Mr. Trekele, M. DeadRusher, Mr. Qmen, Mr. TOXINSS, Mr. Antiaware, Mr. SoraYuuki, and the Press Manager, Mr. Steve. Your vital efforts in expanding not just the Counter Strike Department, but Villoux in general deserve the utmost recognition. I would also like to extend my thanks to the Executive System Coder, Sen. Jibram for his work in ensuring that our Counter Strike server remains active and properly maintained. With that being said, I hereby conclude this month's Counter Strike Department Update.

Transition: Thank you for the update, Mr. Blubber Socks. We will now open the floor to any questions, comments, or concerns per regards the Counter Strike Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

Thank you, Mr. Blubber Socks. There appear to be no further questions, comments, or concerns per regards the Counter Strike Department. We will now move to the system's smallest department, the World of Warcraft Department. Presenting the World of Warcraft Department Update is the World of Warcraft Department Chairman, Dr. Afecter.

World of Warcraft Update as Read by Afecter

Good evening, all. Many of you will remember me as the Minecraft Department Chairman, but it pleases me tonight to join you as Villoux's second ever World of Warcraft Department Chairman. World of Warcraft was last seen in Villoux in April of 2012 and its tenure as a department was very short-lived. I plan to bring an entirely different department to Villoux and plan for it to be far more successful than its predecessor.

For those of you that are unfamiliar, World of Warcraft is an online MMO that focuses on following the storyline of the game via raiding, or PVP-ing other users in arenas or battlegrounds. I, personally, have been playing World of Warcraft for eleven years, so the game means a great deal to me. Combine that with my passion for Villoux, and I have full confidence that with your help we will generate a very successful department. Our immediate focus will be on establishing and growing an in-game Villoux guild, known simply as Villoux Guild. One of my personal friends will be joining us once he receives his new computer and he will act as our Guild Master. Along with him, I will begin working with the System Press Department in advertising our guild on various WoW forums and websites. In addition to web-based advertising, my guild members and I will also be recruiting for other members and guilds in-game name. The guild requirements for World of Warcraft are identical to those of Realm of the Mad God – we require the guild to have at least ten active TeamSpeak members. Between growing the Villoux Guild and reaching out to other guilds, I will certainly have my hands full for the next few months. I ask for your encouragement, patience, and guidance as we work to establish ourselves not just within Villoux but within the greater WoW community.

Transition: We will now open the floor to any questions, comments, or concerns per regards the World of Warcraft Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

There appear to be no further questions, comments, or concerns per regards the World of Warcraft Department, therefore we will end the Department Update portion of tonight's meeting and begin the Closing Ceremonies.

Press Announcement as read by Steve

Thank you, Dr. Baskerville. It is my pleasure to present the Press Department Announcement. This evening, I would like to raise awareness to several matters concerning the Press Department. For those of you that are unaware, Villoux is very active on social media. I encourage every member of the House to like Villoux on Facebook, follow Villoux on Instagram, and join our Steam community. Links for all of the aforementioned can be found in the lobby channel's channel description. Also found in the lobby channel's description is the subscription information for Villoux's Remind101. Remind101 is an anonymous text application that allows the right honorable Villoux Chief of Staff, Dr. Baskerville to send reminders about upcoming events, Villoux server releases, and other important information concerning the system. Subscribing to our Remind101 is completely free, requires no download, and should be something that every member of the House uses. To subscribe to our Remind101, simply follow the instructions for Remind101 in the lobby channel's description. If you do not subscribe within the next week, expect to be contacted by your respective Department Chairman or Executive.

The final topic I seek to raise awareness for is our weekly Radio Villoux events. As I presume all of you are aware, every Friday night from 8:00 PM – 12:00 AM USCT, the Radio Villoux DJ division hosts Radio Villoux events. These events serve as a kind of Villoux block party, bringing together users from all gaming department and several different nationalities. At the events, the Radio Villoux DJs will play music requested by the attendees. Oftentimes, user will engage in fun karaoke sing-offs as well. I would enjoy having each and every one of you there next Friday night, and look forward to seeing many of you. With that being said, I hereby conclude my Press Department Announcement. Thank you for your time.

Closing Ceremonies as read by Dr. Baskerville

Good evening, my fellow members of the Villoux House of Players. I would like to extend my appreciation to you for joining us tonight for this most important longstanding tradition. As mentioned earlier in tonight's meeting, I would like to take just a moment to discuss our League of Legends Department. After April's Grand Council meeting, the League of Legends Department has been without a Department Chairman, meaning that there have been no tournaments hosted in the department and overall activity is at a bit of a standstill. Whereas the Grand Council and I are working diligently to find a new Department Chairman, we are very open to suggestions. If you have interest in this position or have a recommendation for a person that you feel would be interested in the position, please contact me after tonight's meeting.

Whilst on the topic of our gaming departments, I would like to take a brief moment to recognize and commemorate Villoux's Minecraft Department. The Minecraft Department, which was first instated in February of 2011, served as Villoux's central department for nearly all of our early history. The Minecraft Department provided the users that developed our Realm of the Mad God, League of Legends, Counter Strike, and several other departments throughout the system's history. At this time, I would like to provide a brief history of the department and recognize users that made the department the unforgettable force that has had the largest impact in Villoux of any department to date.

The most pivotal user in establishing the Minecraft Department was my former Grand Council colleague, Mr. ZdPanthr. Server Head of the insanely popular server Drug Craft, Mr. Panthr took a risk on joining his acclaimed server to the small TeamSpeak community that would become the Villoux Server System. Through working with Mr. Panthr, the Grand Council established the system's government, gaming departments, and staff divisions that are known in the system today. Without Mr. Panthr joining Drug Craft to Villoux, our Minecraft Department never would have gone off, and nor would anything else in our now over 500+ active user community today. Along with Mr. Panthr's server joined a user that would become known in Villoux as the honorable Mr. Crokey. Though he would not become Minecraft Department Chairman until January of 2015, Mr. Crokey made himself the single most influential person within the department, aside from myself, until his tenure as Department Chairman. Mr. Crokey developed several server themes, models, and administrative chains that became beloved by so many, most notably the PvP factions server, New-Age Craft, which still holds the title of being the most profitable server in Villoux history. He also developed and administrated several Villoux servers that's names would become staples throughout the department, such as Basic Craft, Craft of the Titans, and several FeedTheBeast and Tekkit servers. Another name that would become famous within the system is Snowflake Pixelmon, Villoux's first Pixelmon server. Pixelmon, which is a plugin that adds Pokémon to Minecraft, was brought to Villoux by the Server Head of Snowflake Pixelmon, Mr. Stutterfoot. Though he later committed treasonous acts against the system, he started a trend of Pixelmon servers that lasted in Villoux for years. Taking over Mr. Stutterfoot's role as leader of the Pixelmon was former Minecraft Server Head and Team Fortress 2 Department Chairman, M. Cap1991. By the end of it, M. Cap worked on the development of nearly seven different Pixelmon servers. With a whopping total of sixty-three different servers and sixty-three different Server Heads, it would be impossible for me to thank nearly all of the

users that made our Minecraft Department such as success or recognize the hundreds of people that were impacted by it, but it is unarguable that without Mr. ZdPanthr, Mr. Crokey, Mr. Stutterfoot, and M. Cap, the system would not be where it is today. Other pivotal users throughout the department's history include former Executive Baskerville Assistants the honorable Mr. Cronus and Mr. Penguin, former Executive System Press Officer 48and87rock, former Executive System Coders Mr. Jdaca and Mr. Icyx, and former Minecraft Department Chairmen Dr. Afeter, Mrs. Neonkeii, and Mr. Skullslice.

The Minecraft Department is also the reason that Villoux developed a System Building Department, System Coding Department, and System Press Department. Though the System Coding and System Press Departments have evolved far away from only revolving around Minecraft, the System Building Department's sole goal has always been to provide the highest quality of builds possible in the Minecraft world, which they have done without fail since July of 2012. At the department's height, Villoux's Minecraft servers were the envy of the world. Though the servers always had top-notch administration and unique themes, the builds were always what caught everyone's attention. I would be amiss if I did not thank some very special people in developing the Villoux building standards and making the System Building Department par excellence. Though the the position of Executive System Builder did not exist at the time he served Villoux, my former Executive Baskerville Assistant, the honorable M. Sullivan was instrumental in establishing the first Villoux Minecraft server, the Quest Server. From the start, the Quest Server's glowing cities of Devonshire, Thoos, Normandy, and so many others developed into magnificent examples of the system's building capabilities. Seceding the first Executive System Builder, Mrs. Pbaron88, our last Executive System Builder, Mr. Sammygman expanded on the work of Mrs. Barron and M. Sullivan when he first inherited the position in January of 2013. Though in 2013, Mr. Sammy only served a few months, he solidified the oh-so high standards the Minecraft community grew to love. My Baskerville Advisor and former Executive System Builder, the honorable Mr. Smudd expanded on those standards and raised them to new levels. The work of M. Sullivan, Mrs. Barron, Mr. Sammy, and Mr. Smudd will be remembered for all of Villoux's history and will never be taken for granted, nor should the work of other Executive System Builders, Ms. Siya12, Mr. Donutbomber, Mr. Ssup_Dawg, and Mr. SoulSniper214. Their work ranks amongst those aforementioned. Though they are now disbanded, the Minecraft Department and System Building Department will always be remembered.

On a more cherry note, tonight marks the 50th meeting of this governmental body, which illustrates 50 months or nearly five years' worth of House of Players meetings. This body provides the Grand Council Members and I in insurmountably insight into the desires of our users, the problems that they face, and the solutions. Staff participation is absolutely vital to the success and longevity of our system, so I would like to humbly thank all of you for understanding and demonstrating the importance of these meetings.

I would like to take this time to thank and announce this month's Friend of Villoux. As you know, the Friend of Villoux award is a monthly award given to a member of Villoux's staff that has gone above and beyond in their respective field. It gives me great pleasure to announce that this month's Friend of Villoux is the TeamSpeak Operator, Mr. LegionAbid. Aside from doing a marvelous job in his capacity as a TeamSpeak Operator, Mr. LegionAbid is also an invaluable help to the Realm of the Mad God Server Head, Mr. Lunacy, as mentioned earlier. Other honorable

mentions for this month include the TeamSpeak Operator, the honorable Sen. Ace, the Baskerville Assistant Manager LilMiss, and the Press Manager, Mr. Steve. I would also like to take this opportunity to thank you – the hard working members of Villoux’s staff that make Villoux a system in which “excellence is your only option”.

At this time, I will open the floor to any general questions, comments, or concerns. If you have a question, comment, or concern that did not fit into any of our previous sessions, please feel free to send me a private message with “question”, “comment”, or “concern”, respectively.

With that in mind and in heart, I, the Right Honorable Villoux Chief of Staff, Dr. Baskerville do hereby adjourn this 50th meeting of the Villoux House of Players. Please return to your appropriate channels.
