Transition: We will open tonight's meeting with the results of this month's System Census.

System Census Results as Read by Dr. Baskerville

Good evening, and thank you for joining me at tonight's meeting. As I am sure you are all aware, every three months the system holds a system census to survey elements such as the amount of users in the system, how diverse the system is in regards to nationality, and which departments are bringing in the largest amounts of user. The requirements for a user to be defined in the system census, as outlined by the System Census Ordinance in the Villoux Bill of Ordinances, are as follows: "In order for a user to be counted in a department, the user must have been active in Villoux for at least one month prior to the census, must use the Villoux TeamSpeak server regularly, and must not be inactive in the system for excess one month. If a user violates any of the above stated, he or she is ineligible to be counted in the System Census." Now that you have a better understanding of the census, I shall proceed with this month's results.

The month of September yielded tremendous results. In May of 2016, Villoux reached its highest user count ever at a record 501 users, and I am very pleased to announce that this month the system has yet again broken that record. It brings me great honor and pride to announce tonight that as of September of 2016 Villoux has exactly 525 users that are eligible to be counted in tonight's census. The system never ceases to amaze me at how large it can grow and gives me nothing but the utmost confidence that we shall have no problem in maintaining Villoux's standards of excellence in the coming months. Villoux hosts the largest public Realm of the Mad God TeamSpeak server, we have a booming League of Legends and Counter Strike Departments, and two new very opportunistic looking StarBreak and World of Warcraft Departments.

Specific to each department, the Realm of the God Department remains Villoux's largest department by far with a massive 302 users, an over fifty user increase from May's 255 users. I would like to commend the newly instated Realm of the Mad God Department Chairman, Mr. Silent and the former Realm of the Mad God Department Chairman, Mr. Meowzo for their impressive results, as well as extend thanks to the Realm of the Mad God Guild Masters, Mr. PvtPuncake, Mr. AimbotCM, and Mr. Crazycat for their contributions and hard work in assisting us reach this new height. The League of Legends Department remains the second largest, but reports an extremely minute decline in active users from May's 109 users to the current 107 users. Once we instate new administration in the League of Legends Department, I am certain that we can not only regain those two lost users, but also expand far beyond that. The Counter Strike Department remains the third largest department, and also reports a very slight decrease from 80 users to 72 users. The newly introduced StarBreak Department has become the system's fourth largest department with a solid 10 users for its incorporation into the system. Their new Department Chairman, Ms. FancyLady will also be working closely with the Executive System Press Officer, Mr. IronRain to grow her department. Finally, the World of Warcraft Department has become Villoux's fifth and smallest department, reporting only five users. Their Department Chairman, Dr. Afecter wishes to assure the House that their numbers will increase once the Villoux Guild is able to prepare its member's abilities and inventories for recruitment. There were 29 users

that were non-defined, meaning that they use Villoux's TeamSpeak server regularly, but do not belong to any specific department. Percentage wise, the Realm of the Mad God Department supplies Villoux with 58% of total user base, the League of Legends Department supplies 20%, the Counter Strike Department supplies 14%, the StarBreak Department supplies 2%, the World of Warcraft Department supplies 1%, and 5% of users are non-defined.

The system had a total of 525 users from a total of 40 different countries around the globe. I would like to take this time to recognize those countries. They will be listed by the number of Villouxians from them, beginning with the country with the most Villouxians: The United States of America, the Commonwealth of Australia, the State of Canada, the United Kingdom of Great Britain and Northern Ireland, the Republic of Finland, the Republic of Portugal, the Republic of Estonia, the Kingdom of Belgium, the Republic of Germany, the Kingdom of Sweden, the State of Israel, the Republic of Ireland, the Kingdom of the Netherlands, the United Arab Emirates, the Commonwealth of New Zealand, the Republic of Poland, the Kingdom of Saudi Arabia, the Republic of Bulgaria, the State of Ukraine, the Republic of Croatia, the Kingdom of Denmark, the State of Japan, the Republic of Latvia, the Kingdom of Norway, the Republic of Serbia, the Republic of Slovenia, the United Mexican States, the Republic of Austria, the Arab Republic of Egypt, the State of Kuwait, the Sultanate of Oman, the Federal Republic of Nigeria, the State of Qatar, the Republic of South Africa, the Kingdom of Spain, the Republic of Turkey, the Dominican Republic, and the Bolivarian Republic of Venezuela.

Before concluding the census results, I would be amiss if I did not thank those members of the House that provided major assistance in recording this month's census, especially the Baskerville Assistant, Mr. KingKazma; the Baskerville Advisor, Sen. Crepim; the Executive Baskerville Assistant, Mr. ScionWish; the Realm of the Mad God Department Chairman, Mr. Silent; and the StarBreak Department Chairman, Ms. FancyLady. I humbly thank you all for your contributions, and would like to congratulate the members of the Chairman Committee on a job well done.

Transition: That hereby concludes our System Census Results. At this time, we will move to the Department Updates portion of tonight's meeting, starting with the system's largest department, the Realm of the Mad God Department. Presenting the Realm of the Mad God Department Update is the newly instated Realm of the Mad God Department Chairman, Mr. Silent.

Realm of the Mad God Update as Read by Silent

Good evening, Villoux House of Players. It is my pleasure and honor to join you tonight as the system's new Realm of the Mad God Department Chairman. I will be replacing my predecessor, Mr. Meowzo in both this position and the Villoux Grand Council. Unfortunately, after serving the system for seven months, Mr. Meowzo has been retired due to technical issues with his computer that inhibit him from connecting with the frequency needed to serve as Chairman. On behalf of the Villoux Grand Council, I would like to extend my thanks to Mr. Meowzo for his efforts during his tenure. Now, a bit about myself – I initially joined Villoux at the beginning of August and began to serve the right honorable Villoux Chief of Staff, Dr. Baskerville as one of his Baskerville Assistants. I have been specifically trained for this position by the Baskerville Advisor Manager and former Realm of the Mad God Department Chairman, Mr. Spazproof. I plan to serve in this position for as long as possible and look forward to furthering the department's success as the system's largest department.

The system currently maintains three active guilds, but is always seeking to expand that number. The largest of the guilds, the Nuka Cola Guild, has a total of 48 active members, 25 of which use Villoux's TeamSpeak server. Just behind Nuka Cola in active members is the Divergence Guild with 20 active members, all of which use TeamSpeak. Finally, the smallest guild, the FallenHeroes Guild, is currently lacking Villoux standards to be recognized. The guild has a total of 8 users, which is 2 short of the necessary number to have a guild channel. Their Guild Master, Mr. Crazycat will be notified of this shortage and be given one week to rectify it. In the meantime, it is my goal to work with the System Press Department to ensure that Villoux is advertised across as many forums and websites as possible, so as to increase our number of guilds.

Per Mr. Meowzo's technical issues, he was unable to host the department's monthly dungeon runs. I plan on resuming this tradition and invite all members of Villoux's Realm of the Mad God Department to join me at next month's run. The date and other information about the next run will be posted in the channel description of the Dungeon Running Channel #1 and the VillouxOperatorBot's connection message at the beginning of next month. I am also looking to hire a new North American Dungeon Master to assist in the administration of the Dungeon Running Channels during that time zone. If anyone has any recommendations for this position, please inform me during the "questions, comments, and concerns" portion of my update.

Perhaps the most interesting item on my update this evening is to announce the relaunch of Villoux's widely popular private Realm of the Mad God server, Villoux's Realm. The server was removed from the system last month by the Server Head, Mr. Lunacy, however he has now realized that the decision to remove the server from Villoux was a mistake. With the Grand Council's approval, Mr. Lunacy and his server will be rejoining the system and relaunching the server within the next month. Please check Villoux's Facebook page and the VillouxOperatorBot's connection message to keep updated on the server's progress. At this time, I would like to thank the House for your support to my department and reiterate how excited I am to begin my new tenure. With that being said, I hereby conclude my Realm of the Mad God Department update.

Transition: Thank you for the update, Mr. Silent. We will now open the floor to any questions, comments, or concerns per regards the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

There appear to be no further questions, comments, or concerns per regards the Realm of the Mad God Department. We would generally move to the system's second largest department, the League of Legends Department and the third largest department the Counter Strike Department, however due to those department's lack of a Department Chairman, I will cover their in Department Update in my Closing Ceremonies. At this time, we will now move to the system's fourth largest department, the StarBreak Department. Presenting the StarBreak Department Update is the StarBreak Department Chairman, Ms. FancyLady.

StarBreak Update as Read by FancyLady

Good evening, Villoux House of Players. I am honored to join you this evening as the StarBreak Department Chairman. I originally joined the system in July of this year, and served as a Baskerville Assistant for two months before being sworn into my new office on the Villoux Grand Council. I wish to express to the House my devotion to making my department a success within Villoux.

As the StarBreak Department Chairman, I hope to expand the game to both other Villouxians and general StarBreak users alike. I believe that many of Villoux's Realm of the Mad God users would derive pleasure from the game due to its aesthetic and gameplay similarities to Realm. Especially when users are frustrated with Realm, I hope that opposed to leaving Villoux altogether, users can find themselves enthralled with StarBreak instead. Alternatively, I hope that StarBreak users will also show the same appreciation and interest in Realm of the Mad God. Now, a bit about StarBreak as a game: StarBreak is a side-scrolling, skill-based, action platformer MMO where the player explores strange sci-fi worlds alongside dozens of others, killing legions of aliens and epic bosses in the process. The game allows for the creation of guilds, which function nearly identically to those in Realm. Villoux will offer guild channels to guilds with at least ten active TeamSpeak users. In addition to the guild channels, Villoux will also offer Mission Channels, which allow users to communicate in a private environment to coordinate the dungeons or "missions" in the game. For additional information on the game, please click the following link: <http://www.crunchy.com/?q=wiki/Introduction/>

In order to expand the numbers in our department, I will be working with the Executive System Press Officer, Mr. IronRain to merge smaller communities into Villoux, as well as bring individuals to the system via StarBreak forums and websites. The goal on the forefront of my mind is incorporating as many guilds as possible into the department, and is very open to any support in doing so. In conclusion, I would like to extend my thanks to Mr. IronRain, the Executive Baskerville Assistant, Mr. ScionWish, the StarBreak Mission Master, Mr. Kareta, and all those else that have helped me in forming the department. With that being said, I hereby conclude this month's StarBreak Department update.

Transition: Thank you for the update, Mr. Kareta. We will now open the floor to any questions, comments, or concerns per regards the StarBreak Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

There appear to be no further questions, comments, or concerns per regards the StarBreak Department. We will now move to the system's fifth and smallest department, the World of Warcraft Department. Presenting the World of Warcraft Department Update is the World of Warcraft Department Chairman, Dr. Afecter.

World of Warcraft Update as Read by Afecter

The World of Warcraft Department is happy to bring to Villoux's attention that the Legion expansion is live and the arena and raiding season has come to a start. With that being said, we are looking forward to having a great expansion and bringing as many people to Villoux from the game as we can. The Villoux Guild is hoping to be expanding in the upcoming weeks. We hope to achieve a weekly progression raiding group, where we have ten or more players with the goal of progressing through the expansions first raids. On top of the raiding portion of the guild, we are excited to get the PVP portion of the guild up and running. With myself and the World of Warcraft Guild Master, Mr. Torval, being World of Warcraft veteran PVP-ers, we've already had a strong start of the arena season. We are going to be looking for a good group of users for future rated and ranked player vs. player events. With this being said, Villoux's World of Warcraft Department isn't just for the Villoux Guild; we want to be a warming and inviting environment for any other guilds that wish to have a voice to voice communication. All in all, the World of Warcraft Department is going to hope for the best and do as much as we can to build a solid community of users for Villoux and all it has to offer.

Transition: Thank you for the update, Dr. Afecter. We will now open the floor to any questions, comments, or concerns per regards the World of Warcraft Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

Since there appear to be no further questions, comments, or concerns per regards the World of Warcraft Department, we will now conclude the Department Updates portion of tonight's meeting and move to the Closing Ceremonies.

Closing Ceremonies as Read by Dr. Baskerville

I would like to thank each of the member of the House for their attendance at tonight's meeting. The meetings are certainly essential to ensuring Villoux's continued success as a business, a government, and a community. Also essential to Villoux's success is good administration. Both the League of Legends Department and the Counter Strike Department are in need of Department Chairmen that can aid in hosting tournaments and recruiting teams for their respective departments. If you are interested in either of these positions or have recommendations for someone that may be, then please contact me after tonight's meeting. At this time, I would like to take this time to thank and announce this month's Friend of Villoux. As you know, the Friend of Villoux award is a monthly award given to a member of Villoux's staff that has gone above and beyond in their respective field. It gives me great pleasure to announce that this month's Friend of Villoux is the TeamSpeak Operator, Ms. ABCUSEEME. Ms. ABCUSEEME has proven herself an asset to the Operation Department time and again. Other honorable mentions for this month include the System Press Officer, Mr. Qmen. I would also like to take this opportunity to thank you – the hard working members of Villoux's staff that make Villoux a system in which "excellence is your only option".

At this time, I will open the floor to any general questions, comments, or concerns. If you have a question, comment, or concern that did not fit into any of our previous sessions, please feel free to send me a private message with "question", "comment", or "concern", respectively.

With that in mind and in heart, I, the Right Honorable Villoux Chief of Staff, Dr. Baskerville do hereby adjourn this 52nd meeting of the Villoux House of Players. Please return to your appropriate channels.
