The Forskaen World Guild Master pjxxx1128

The Terraria Head Virtus

The Minecraft Server Head capta1npenguin
The Minecraft Server Head Commander_Derpy
The Minecraft Server Head Liamc214

The Grand Council Member Crokeykid
The Grand Council Member ZdPanthr
The Grand Council Member Smudd

The Villoux Head Dr. Baskerville

TeamSpeak Regulations as Read by Gocky

I would just like to remind you all of a few of the TeamSpeak rules that some members do not seem to be enforcing. First of all, I would like to recommend that all of you become familiar with our recently published TeamSpeak Regulation Guidelines. The link to those may be found in either the TeamSpeak Operator's channel description, or the Welcome message upon first logging onto Villoux TeamSpeak. Second of all, I would like to remind our Guild Masters and Minecraft Server Heads that users connecting into their channels need to use their in-game username as their TeamSpeak name opposed to their actual name. The reason behind this is because it is much easier for not only the Operation staff, but also yourselves and other users to locate and communicate with the members. With that being said, any user that is caught using a name that is not their in-game name will need to be requested to change it by a proper authority. We would prefer that you, the Guild Masters, Minecraft Server Heads, and channel admins, take care of this by yourselves opposed to having to let the Operation staff handle the issue. If the TeamSpeak Operation staff finds users without their username as their TeamSpeak name, we will be entitled to kick them from the server.

The TeamSpeak Operation staff and I have also decide that AFK users should be moved into the channel spacers for the channel that they are idle in. We will define a user as "AFK" if the users sound is muted, has an AFK avatar, or is unresponsive on TeamSpeak.

If you have an issue with this new regulation, or questions about already instate regulations, please feel free to contact me after the House meeting tonight.

**** With that in mind, I would now like to welcome Varacka to the podium to read an update on the Team Fortress 2 Tournament.**

TF2 Tournament as Read by Varacka

Thank you, Mr. Gooky.

Good evening everyone. I am the Team Fortress 2 Department Chairman, Varacka, but you knew that already. Anyways, I have some information on the next TF2 Tournament. But before I do that, I would like to announce the results of the TF2 Tournament for this month. The winner of this month's TF2 Tournament was the Red Team's Solider, DragonBreath. He performed marvelously with his teammates, and showed great leadership skills. Now, the next tournament is scheduled to be held on Saturday July, 28th at 8PM United States Central Time. In order to continue to perform successful Tournaments, we would like to invite our friends from The First Colberg Infantry, as well as our friends on Cake Town to join us in the upcoming tournaments. If you are interested in applying for the tournament, please speak to Mixizm or DragonBreath. Well, that's pretty much it. I guess I'm done now... Bye!

**** Thank you for that information, Varacka. We will now move on to an International System Alliance notice as read by the Vice President of the ICA, Penguin**

ISA Notice as Read by Penguin

Good evening everyone. As the International System Alliance officer from Diamond to Villoux, and the International System Alliance Vice Chairman, I am pleased to announce that the Diamond Server System has now successfully merged with the Villoux Server System. This merge will bring all Diamond users to Villoux. The Diamond System's server "Wooden Sword PVP" will redirect their users to Villoux System's server "Craft of the Titans". Diamond's server, Basic Craft, will be joining the Villoux Server System, and has been given Grand Council House Application bypass. Therefore, I will be resigning from my position as an ISA Officer, and will henceforth be defined in the Villoux Server System as the Minecraft Server Head of the server, Basic Craft.

**** Thank you for that information, Penguin. We will now move to the honorable Villoux Head, Dr. Baskerville, who will be giving us an update on the Executive staff.**

New Executives As Read by Baskerville

A good evening to you all. I am pleased to announce that we have two new Executive officers joining our system. The first department to receive a new Executive, or more so Chief, is the System Building Department. I am pleased to announce that pbarron88 will be assuming the role of Villoux's Chief System Builder. She will be succeeding MissLadyL09, who, unfortunately, was banned from the system for revealing private information about our servers to another banned user. Pbarron has done work on Villoux such as the interior of the Baskington University on Drug Craft, the spawn on Basic Craft, and will soon begin working on redoing the spawn on Craft of the Titans. The next Department to receive an Executive is the System Coding Department. After much deliberation on whom to appoint to this oh-so powerful position, the Grand Council and Board of Executives have reached a mutual agreement that excavator5, Sullivan, will be our choice for the position. Sullivan has served in Villoux for over two years, and was one of the seven original members to join Villoux back in 2010. He is recently returning from a hiatus on the system during which he toured Canada with his band, Hhogwash. Sullivan will be succeeding cnx4mia123, whom resigned from his position due to lack of time to devote to it. The Grand Council has full confidence in the two of you, and we welcome you to the Board of Executives.

**** Thank you for those words, Dr. Baskerville. I wish you both good luck in your new positions. We now move on to the Villoux Press Department request as read by the Executive Press Officer, 48and87rock.**

System Press Request as Read by 48

Good evening everyone. The System Press, Dr. Baskerville, and I have recently realized that with the Villoux Server System growing as rapidly as it has been, we have been falling a little behind on doing advertisements. However, you must realize that the Press Staff is only composed of six members, and those six members must do advertising for five departments. This means that the press staff, just six people, is responsible for keeping up with approximately 50 different links around the Internet for Villoux. Because of the mass amount of links we are responsible for, and the amount of time it consumes advertising for the aforementioned links, I would like to request that the press department be allowed to expand from only six system staff officers to twelve officers. Before I request this from the Villoux Grand Council, I would like to request the opinion of some of my fellow House members. If anyone has any comments, or concerns about this, please turn your red light on.

**** I wish you good luck in your presentation to the Grand Council, 48. We will now move on to the Garry's Mod Department Introduction as read by CrestedD.**

Garry's Mod as Read by CresteD

Good evening everyone, my name is CresteD, or Blake, and I am the Department Chairman of the new Garry's Mod department on Villoux.

We will be offering a 24-hour Phase Four Roleplaying server. I am hoping to populate the server and the Villoux traffic. The server will offer an apocalyptic roleplay, bringing trading caravans, scavenging, wars between factions, military. That kind of stuff, so it brings a lot of different roleplaying to the game, dealing with military, or scavenging in dangerous lands dealing with monsters or other players that will pose there player as a bandit.

I am also planning on being a more active member of the Servers so I can over-watch the player population and staff behavior to be sure every player is having a interesting and fun experience on our server.

I look forward to working with you all, and thank you for allowing me into Villoux!

**** Thank you for that information, CresteD. We will now move on to the Terraria Department Introduction as read by Virtus.**

Terraria as Read by Virtus

**** Thank you for that information, Virtus. We will now move on to the Forsaken World Department introduction as read by Draekrio.**

Forsaken World as Read by Draekrio

**** Welcome to Villoux, Draekrio! I wish you good luck in perusing Villoux's Forsaken World Department. We will now move on to the Insodine Forsaken World Guild Introduction as read by the Forsaken World Guild Master, pjxxx1128.**

Insodine Introduction as Read by Pj

Well good evening people of the Villoux House of Players! My name is pjxxx1128, and I am a Forsaken World Guild Master! My guild has recently been approved to join Villoux by Draekrio. While Draekrio's guild, Desdemona, will offer interest to more advanced players in the game, my guild will be public and welcome to any new-comers. If you are interested in joining the game, I would recommend you start by playing in the Insodine guild! I would be more than happy to help train anyone interested in joining Desdemona prepare in Insodine. Thank you for your time, House. Long Live Baskerville! Long Live Villoux!

**** Umm... Thank you, I think. We will now move on to the Rise of Nations Minecraft Server Application as read by Commander Derpy.**

Rise of Nations Application as Read by Commander

<https://docs.google.com/document/d/1ycFyMwdqbIIIn42Fl1gKzajlmT9Rpd77gqna-6KV7C4/edit>

**** We have now heard Commander Derpy's application speech. The House will now call upon users whom wish to give support or opposition speeches for this Minecraft Server's application. If you wish to present a Support or Opposition speech, please turn your Red Light on. ***Wait about 10 seconds*** The House now calls upon pjxxx1128 to deliver a speech on the application of the Minecraft server, Rise of Nations.**

RoN Support as Read by Pj

Good evening again everyone! I would like to support Rise of Nations joining the Villoux Server System for a number of different reasons. The first reason is because I personally feel as if Villoux has many different unique aspects to it, and Tekkit would be a grand uniqueness to continue in our System. Secondly, I have spoken with Commander Derpy, and I feel as if anyone is fit to succeed me in the Tekkit department, it would be Commander. Commander Derpy seems to have a good gest of how to manage Minecraft servers, and I know that his co-owner, Sullivan, is experienced in that field. On a third note, I also feel that Commander's server's theme is an excellent theme that could not possibly be copied, or less entertaining than any other Tekkit server. With that, I invite you to join me in the opportunity to take vote this server into the system.

**** Other users who wish to deliver Support or Opposition speeches, please turn your red light on now. The House now calls upon Sullivan, excavator5 to deliver a speech.**

R.O.N Support as Read by Sullivan

Greetings everyone. I am here to talk to you about this new Tekkit server called Rise Of Nations. As you may know Commander_Derpy and I both run the server, from coding plugins to building we dedicate our time to ensure that this server is in tip top shape. Now, instead of my speech being about the server it will be more about who Commander is. Commander is new to this system and I would much rather have people think of Rise Of Nations as Commander Derpy's and Sullivan's server than just Sullivan's server. Commander_Derpy has been a good friend of mine for the last while, chatting about Minecraft and Tekkit stuff we both appreciated the same thing. We decided after I got offered a free server host that we both could run it. We have stepped up from that free server to a 18 slot server. We currently have been hard at it with our forums and website, the server construction and the plugin configuration. Commander_Derpy has a large knowledge base in computer science. No one else would fit this position better than him. Thank-you for your time.

**** Other users who wish to deliver Support or Opposition speeches, please turn your red light on now.**

**** Call upon people by using this structure:**

The House will now recognize <username> to deliver a speech about the application of the Minecraft server, Rise of Nations.

****If no one wishes to deliver another speech, say:**

Seeing as there are no further users whom wish to present speeches about the application of this Minecraft server, we will proceed to a voting period on this application. All users voting "Neutral" on this server's application, please turn your red light on now. (Count The Number of Lights On) All users voting "For" this server joining Villoux, please turn your red light on now. (Count The Number of Lights On) All users voting "Against" this server joining Villoux, please turn your red light on now. (Count The Number of Lights On)

****If the server passes, say:**

Villoux, it pleases me to announce that the application of the Minecraft Server, Rise of Nations has passed the House of

Players, and will proceed to be presented to the Villoux Grand Council!

****If the server fails, say:**

Unfortunately, the Minecraft Server, Rise of Nations, has not passed the Villoux House of Players and will therefore be denied access to be presented to the Villoux Grand Council.

****If there is a majority of neutral votes, say:**

The Villoux House of Players shows no obvious interest in this Minecraft Server. This server shall pass to the Villoux Grand Council for further deliberation.

****We will now move on to the Closing Ceremonies. Please welcome the honorable Villoux Head, Dr. Baskerville to the podium.**

Closing Ceremonies as Read by Dr. Baskerville

My fellow Villouxians, the time for our meeting to end is now growing upon us. Throughout the laps of this evening's meeting, we have had numerous issues resolved, many ideas brought to our table, and various thoughts presented that will require contemplation.

I would like to take this time to announce Villoux's Friend of Villoux for this month of June. I am pleased to award this prestigious reward to a user that has devoted hours of his time in preparing and ensuring success on the Team Fortress 2 Tournaments. This user is a true Villouxian, and a proud one at that. I would now like to present Mixizm with this month's Friend of Villoux award. The award this month consists of \$25 United States Dollars. From the Team Fortress 2 Department, and all of Villoux, we thank you for your devotion to our system. Honorable mentions for this month include: cheezcake117, hobomatt4, and capat1npenguin.

As far as thank-you's go, I would like to personally thank Gooky for being this month's Master of Ceremonies for the House. I would like to also thank Madison and 48and87rock for excelling in their positions as Executives, and I would like to wish Sullivan and pbarron good luck in their new positions as Executives on Villoux.

It pleases me to announce the arrival of our two new departments. I have high hopes for both Crested's Garry's Mod Department, as well as Virtus' Terraria Department, and Draekrio's Forsaken World Department. Equally, I would like to welcome Commander Derpy to Villoux's Minecraft Department as a Minecraft Server Head.

Without further ado, we are finally ready to label this meeting completed. I think Pj said it best when he said, "Long Live Villoux!". I now announce this 5th meeting of the Villoux House of Players adjourned.
