

Villoux

House of Players Proceedings

Order, order! I, the Right Honorable Villoux Chief of Staff Dr. Baskerville, do hereby call to order this 72nd meeting of the Villoux House of Players on this 28th day of July in the year of 2018. Topics of conversation for this meeting will be: Department Updates, Minecraft Section Vote, and Closing Ceremonies. At this time, all text channels will be closed. If you type into a text channel at any time, you will be moved out of the voice channel, and will be marked absent from this meeting.

Baskerville Cabinet

Baskerville Advisors –

-  Steve
-  Madison
-  Crepim
-  Kiitycat
-  Afecter
-  SoulSniper214
-  Qmen
-  Suffy
-  Jibram

Baskerville Assistants –

Transition: We will open today's meeting with the department updates. Presenting the department update on behalf of our largest department, the Realm of the Mad God Department, is the Realm of the Mad God Department Chairman, Mr. Fulfi.

Realm of the Mad God Update by Fulfi

Good day, members of the House of Players. The month of July is a very busy month for many of us since it includes many summer holidays. This is especially true for us Europeans and I am no exception. For a few weeks this month, I had to take time to relocate myself from my home in Montenegro to my new job on the other side of Europe in Germany. Despite this, I have been busy at working staffing my department. As some of you may recall from last month's department update, I came into my position after it had been vacant for some months, meaning that many positions with my department were unfilled. In prioritizing which positions should be filled, I placed the highest importance on the Realm of the Mad God Dungeon Masters. I have already recruited one user to fill the five vacancies for this position, the Realm of the Mad God Dungeon Master, Dr. Pibb. Dr. Pibb is planning on hosting his first dungeon run early next month, so please keep your eyes on #villoux announcements and #realm_of_the_mad_god for more information. I am also very pleased to announce that we have three other users lined up to accept positions as Dungeon Masters. You will remember me mentioning early about how much Europeans love their holidays, and, well guess what? All three of the other Dungeon Masters are Europeans! This means they are on holidays until about mid-August, but once they return from their respective holidays, they will be joining our staff and begin hosting dungeon runs just like Dr. Pibb. I am very pleased with the way hiring these Dungeon Masters has worked out, but we are still short one so if you are aware of any user, Villoux member or otherwise, that has a lot of keys they would be willing to share with us, please bring them to my attention so that I may approach them about joining our staff as well.

Dungeons aside, I am also looking to recruit additional guilds to join our system. There is currently a total of zero Realm of the Mad God guilds that are a member of Villoux and we must change that as soon as possible. I will spend about the first week of August looking for guilds to join our system, but I am unlucky in doing so, I will be starting my own Villoux guild. If this is the case, I extend an invitation for any member of the system that plays Realm of the Mad God to join us. If you have never played the game before, this will be a great opportunity to familiarize yourself with the game in a comfortable and friendly environment.

Finally, because we still get questions about it all the time, I will give a very brief update on our private Realm of the Mad God server, Villoux's Realm. Older members of the House may recall that the Executive System Coder, Mr. Silent was one of the people who played a very active role in the server in the past. It is my hope that I will be able to convince him to again find interest in the server as his coding knowledge is what we are lacking in terms of being able to re-release the server. It seems to be a running joke at this point, but Mr. Silent is another European that is on one of those long holidays! When he returns in August, I will begin speaking with him about getting him back involved in the server. As we approach the discussion period of my update, I would like to welcome all members of the House to give me comments about how they would like to see the dungeon runs administrated, any hopes they have for the future of Villoux's Realm, and

any guilds they may be able to recommend joining the system. With that being said, I conclude my department update and thank you all for the time and privilege to serve you.

Transition: We will now open the floor to any questions, comments, or concerns in regard to the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Realm of the Mad God Department, we will now move to the system's smallest department, the Fortnite Department. Presenting the Fortnite department update is the Fortnite Department Chairman, Mr. Earl555.

Fortnite Update by Earl554

My fellow Villouxians and members of the Villoux House of Players, I stand before you this evening to apologize. To apologize to my department, to apologize to my staff, and to apologize to the Grand Council. At the end of last month, the Grand Council voted to elect me to serve as your Fortnite Department Chairman. In the month since, I have failed to meet their expectations. I have failed to have my weekly meetings with the right honorable Villoux Chief of Staff, Dr. Baskerville and I have failed to hold any meetings with my own staff. Even though this has been a busy time in my life, I still find these failures to be unacceptable. I am embarrassed to stand before you tonight to say that I have no new information to report on my department. No work has been made, but I did still want to give an address to say how sorry I am for that to be the case. I have spoken to Dr. Baskerville and I understand that this behavior will not be tolerated in the coming months, so I am dedicated to reproofing my worth to not just him but my department and Villoux in general. Again, I say that I am sorry and would like to end by welcoming anyone with any ideas for the Fortnite Department to speak up about what they would like to see.

Transition: Thank you, Mr. Earl. We will now open the floor to any questions, comments, or concerns in regard to the Fortnite Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Fortnite Department, we will end the Department Updates portion of today's meeting and move to the Minecraft Section Vote.

Minecraft Section Vote by Dr. Baskerville

As our more veteran staff members will recall, Villoux sponsored a Minecraft Department from February 2011 – July 2016. For the vast majority of that span of five years, this Minecraft Department dominated Villoux. It is still the recordholder for tenure as the system's largest

department and in its time, it saw a total of sixty-three different Minecraft servers, including the massively popular Drug Craft, Snowflake Pixelmon, Rise of Nations, New-Age Craft, and Basic Craft. Our Minecraft Department was the spawn that presented the users who would go on to form our Realm of the Mad God, League of Legends, Counter Strike, and Fortnite Departments that exist today. The connections and users that the Minecraft Department provided to Villoux was insurmountable. Sixty-three servers and hundreds of users made this department the face of Villoux for many, many years, but, in July 2016, the Grand Council moved to disband the department. By this time, the Minecraft Department was no longer the largest department in Villoux, it was increasingly difficult to bring users onto the Villoux TeamSpeak server, and giant hub Minecraft servers became extraordinarily difficult with which to compete. These reasons paired with a Minecraft exhaustion from Villoux users and the Grand Council, paved the way for the department's disbandment.

Though the decision to disband the Minecraft Department was not one that was made lightly, it was ultimately what the Grand Council believed was the best decision at the time. Now in retrospect, I find myself questioning whether or not that was the right move. In reviewing all of the elements that make Villoux a successful community, I find that one of the key ingredients is uniqueness in the services we provide. We currently operate multiple tournaments and aspire for guilds, but we do not offer anything distinctly different from other gaming communities. In the days of the Minecraft Department, our Minecraft servers were what gave us that edge. This same trend can be seen in our Realm of the Mad God Department, which was most popular when the private server, Villoux's Realm, was in operation. We draw new users into the system by offering them servers that other communities cannot; after all, we are a "*server* system". Without these servers, Villoux loses that edge, and it has become apparent in stagnant censuses and failure to maintain department growth. Our community wants that extra oomph that makes Villoux a community in which excellence is their only option. Our motto itself even came from the standards our Minecraft servers upheld.

In the two years without the Minecraft Department, Villoux has experienced great change as a community. Most poignantly, the issue revolving around bringing users to the TeamSpeak server no longer exists. With Discord now being the system's primary form of communication, one of the biggest obstacles to the former department should now be remedied. The necessity of offering unique servers to our user base has also become painstakingly clear, which is why I would like to gauge the interest of this House of Players in re-establishing a Minecraft Department in Villoux. Should this House indicate that it is, indeed, interested in a new Minecraft Department, I plan on contacting several of the users that were involved with our previous Minecraft Department and requesting their assistance in restoring a new Minecraft Department. Several of these users have already heard rumors of Minecraft's reentrance to Villoux and contacted me to say they are ready and willing to help. This includes the former Executive System Coder, Mr. Jdaca; the former Minecraft Server Head and former Executive System Coder, M. Sullivan; the former Executive System Builder and current Baskerville Advisor, Mr. SoulSniper214; the former Minecraft Department Chairman and current Baskerville Advisor, Dr. Afeter; and the former Executive System Coder and current Executive System Art Designer, Mr. Cronus. With assistance from these users and hopefully other older Villouxians, I believe the possibility of another successful Minecraft Department is growing day by day. Because I believe that Villoux is at its strongest when we are able to offer unique servers to our users and because I believe that Minecraft

is the most efficient way for Villoux to meet the need, I urge all members of the House to vote “In Favor” of recommending a Minecraft section be established. Before doing so, I welcome open conversation and debate on this subject and hope to hear many of your ideas, including ideas about what types of servers you would like to see in the system.

Transition: At this time, we will now open the floor to any questions, comments, or concerns in regard to the establishment of a Minecraft section. Now is the appropriate time for any member that wishes to speak in favor or in opposition of the matter to speak.

Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the establishment of a Minecraft section, we will move to a period of voting on this item. Each member of the House will be temporarily unmuted in order to cast their vote. While unmuted, you may only cast your vote. This is not the time to ask questions or make any statements. Votes are cast by simply stating “In Favor”, “Opposed”, or “Abstained”. “In Favor” means that you want the proposed item to pass, “Opposed” means that you do not want the proposed item to pass, and “Abstained” means that you are unable to form an opinion on the item. Please note that these three forms of voting are the only acceptable answer when casting toes. “Yay”, “Nay”, “Yes”, “No”, “Against”, etc. will not be recorded as votes. Users that respond with anything other than the three appropriate answers will be cast as “Non-Voting”. Other users may be cast as “Non-Voting” if their position does not permit voting or if they are excused from this House meeting. Users that are absent from the House at the time of the vote will be cast as “Absent”. Note that the House’s decision on this matter is unbinding. At least 50% “In Favor” is required for this vote to pass. I hereby open voting.

House Member	Member Rank	Vote

 Earl554

Fortnite Department Chairman

In Favor

 Dr. Baskerville

Villoux Chief of Staff

In Favor

Full-Vote:

37% In Favor, 02% Opposed, 05% Abstained, 14% Non-Voting, 42% Absent

Present-Vote:

87% In Favor, 04% Opposed, 26% Abstained, 00% Non-Voting, 00% Absent

Transition: With all votes now being recorded, the House will move to a very brief period of recess so that the votes may be calculated. This 72nd meeting shall resume regular session upon the second gavel rap.

Transition: Order, order! This is House is back in session with the votes from the previous item being fully tallied. The full vote, which includes absences as non-voters, will be presented first, followed by the present vote, which only includes those present at this meeting or those that submitted absentee voting. The votes for the full vote report as follow: 00% "In Favor", 00% "Opposed", 00% "Abstained", 00% "Non-Voting", 00% "Absent". The votes for the present vote report as follow: 00% "In Favor", 00% "Opposed", and 00% "Abstained".

Transition in the event over 25% is non-voting or absent: As in accordance to the Jdaca Clause of the House of Players Ordinance, the present vote is the binding vote.

Transition if the item passes:

The House has made clear its support for establishing a Minecraft Department. In the absence of an Executive System Press Officer and a Misc. Gaming Section Manager, I find myself as Chief of Staff in a position to immediately order a Minecraft section be established and a Minecraft Development Board be created. For the interim, I myself will serve as section leader of the Minecraft section and president of the Minecraft Development Board until I have solidified my opinion on whom should serve as the Minecraft Department Chairman should the section ascertain such a status. My mind is open and ready to be molded, which is why I request that every user interested in helping bring Minecraft back to Villoux apply for a position on the Minecraft Development Board. This Board will not interfere with any member of staff's ability to continue in their current position, rather it will also open them up to ways to assist us grow Minecraft. With backing from previous Minecraft titans, I am excited to begin exploring what the future of Minecraft looks like in Villoux, and I can assure this House that I will work with all due diligence trusted to me in order to ensure this House's interests are meet satisfactorily. I welcome all member's support and look forward to working with all who have interest in doing so.

Transition: This now concludes the vote on the Minecraft section. We will now move to the Closing Ceremonies.

Closing Ceremonies as Read by Dr. Baskerville

Good day, my fellow Villouxians. May I start my closing ceremonies by thanking all members of the House that submitted a vote on the establishment of a Minecraft section. I mentioned a great deal about how Minecraft servers provide a uniqueness to Villoux, but I neglected to mention what is perhaps the most unique component of our community – this body, the Villoux House of Players. In an Internet world full of autocratic communities with one singular owner, Villoux stands out by allowing all of our members of staff to have a word, a say in how our community is governed. The fact that this body comprised of 60 members of staff holds authority is a brilliant example of a government run by the people for the people. This style of government is extremely rare in our gaming world, and it is opportunities like the vote this evening that reminds me how proud I should be of being a member of a community that places such value on the thoughts of the individuals that comprise it. Indeed, it is an honor to serve this system as its Chief of Staff. As the Fortnite Department Chairman, Mr. Earl made note of in his department update, the responsibility of serving on the Grand Council is one that each Grand Council Member takes very seriously, and I applaud him for acknowledging his faults in front of this assembled body so that this House can stand a reminder to him the interest our system holds in his department. I would also like to especially applaud my newly instated Executive Baskerville Assistant, Mme. Shortylyons. Mme. Lyons has adapted to her position fantastically well and each time she is at my side for assistance, I feel extremely well-taken care of. In front of our assembled staff, Mme. Lyons, I would like to humbly thank you for being at my assistance. Speaking of hard-working members of the system, I would like to thank and announce this month's Friend of Villoux. As you know, the Friend of Villoux award is a monthly award given to a member of Villoux's staff that has gone above and beyond in their respective field. It gives me great pleasure to announce that this month's Friend of Villoux is the System Art Designer, Sen, Vzilefreak. Though he is a quieter and lesser known member of staff, Sen. Vzilefreak is the mastermind behind all of our beautiful Grand Council portraits. Though his work is always top notch, I am choosing to award him friend of Villoux this month because he was able to complete the four Grand Council portraits of Mme. Shortylyons, Mr. Fulfi, Mr. Hyena, and Mr. Earl in such a timely and captivating manner. Sen. Vzilefreak is yet another example of the excellence that runs throughout all of our staff, which leads me to take this opportunity to thank you – the hard-working members of Villoux's staff that make Villoux a system in which "excellence is your only option".

At this time, I will open the floor to any general questions, comments, or concerns. If you have a question, comment, or concern that did not fit into any of our previous sessions, please feel free to send me a private message with "question", "comment", or "concern", respectively.

With that in mind and in heart, I, the Right Honorable Villoux Chief of Staff, Dr. Baskerville do hereby adjourn this 72nd meeting of the Villoux House of Players. Please return to your appropriate channels once you have been unmuted.
