

# Villoux

## House of Players Proceedings

Order, order! I, the Right Honorable Villoux Chief of Staff Dr. Baskerville, do hereby call to order this 78<sup>th</sup> meeting of the Villoux House of Players on this 23<sup>rd</sup> day of February in the year of 2019. Topics of conversation for this meeting will be: department updates, staff announcements, and closing ceremonies. At this time, all text channels will be closed. If you type into a text channel at any time, you will be moved out of the voice channel, and will be marked absent from this meeting. I would like to further remind all members of the House to mute their microphones. Any voice activity coming from a member's microphone not recognized by the House to speak will result in you being moved out of the channel and being marked as absent from the meeting.

### Baskerville Cabinet

#### **Baskerville Advisors –**

-  Steve
-  Madison
-  Crepim
-  Kiitycat
-  Afecter
-  Spazproof
-  SoulSniper214

**Transition: We will begin with the department updates portion of tonight's meeting beginning with the system's largest department, the Realm of the Mad God Department. Presenting the Realm of the Mad God department update is the Realm of the Mad God Department Chairman, Mr. Fulfi.**

## *Realm of the Mad God Update as Read by Fulfi*

Thank you and good day, everyone. The month of February was a successful month for my department, starting with the two dungeon runs we hosted. Despite not having a Realm of the Mad God Dungeon Master, my department impressed me by managing to host these runs for half of the weekends this month. Generous users like the Baskerville Assistant, Mr. KingKazma and the Baskerville Advisor Manager, Mr. Qmen volunteered their own personal keys to open events since we were without a Dungeon Master. Though my department and I are very grateful to users like Mr. Kazma and Mr. Qmen, it would not be right for us to continue to take advantage of their kind nature, so I am going to be working very hard in the coming weeks to ensure that we hire a new Dungeon Master to coordinate these events. I hope you all have read my post in #villoux\_ announcements discussing my interest in hiring a Dungeon Master, but, if you have not, please give it a read and contact me if you would be interested in being reassigned or if you have any ideas for users I should contact.

You may be asking yourselves, well what happened to the Realm of the Mad God Dungeon Master we did have, Dr. Loli? Dr. Loli has been reassigned from his previous and now serves as the Realm of the Mad God Guild Master of the Villoux Guild, replacing Mr. CatScern. It was with great sadness my department and I watched Mr. CatScern's departure, as, in the words of the right honorable Villoux Chief of Staff, Dr. Baskerville "He was a model Guild Master.", but we understood he had to go because of a lack of time to commit to the guild. Dr. Loli was selected as Mr. CatScern's replacement and boy does he have big shoes to fill. Jokes aside, Dr. Loli has already been doing a good job. He has purged inactive members and members who were not on the Discord server from the guild and he has worked with the System Press Department to quickly replace those ousted members with new members. I would like to thank the System Press Officers and the Executive System Press Officer, Mr. ItzGangsterHD for the great job they did on getting a guild recruitment post up on Reddit. That post was instrumental in helping Dr. Loli fill the Villoux Guild's vacancies all the while bringing new users to our Discord server.

I am expecting another void of sorts to be created in the Villoux Guild when the Realm of the Mad God Guild Master of the Villoux Elite Guild, Mr. LAZARBRO begins sending invites to members of the Villoux Guild who are eligible to promotion to the Villoux Elite Guild. As Dr. Baskerville outlined in last month's State of Villoux Address, the Villoux Elite Guild is meant to serve as a guild for the higher-leveled members of the system, especially those previously in the Villoux Guild. One of the most common reasons we hear for users leaving the Villoux Guild is that the guild's overall ranking was too low or there were too many novices in the guild. The establishment of the Villoux Elite Guild should quell such complaints as membership in it should be reserved for the top Realm users in our community. Mr. LAZARBRO has outlined the requirements of the guild to be applicants have at least 3 characters at 7/8 and have a base fame of 2,000 on at least one character.

Finally, I know the Realm of the Mad God text channels have been particularly active lately, so I would like to thank the Discord Operation Department, especially the Discord Operator, Mr. Wrench for helping me keep a watch on them to ensure everything remains orderly. Well, with that being said, I hereby conclude my department update and thank you all for your time.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the Realm of the Mad God Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Realm of the Mad God Department, we will now move to the system's second largest department, the League of Legends Department. Presenting the League of Legends department update is the League of Legends Department Chairman, Ms. SimplyAshella.**

## *League of Legends Update as Read by Simply Ashella*

Hiya, everyone, and welcome to the League of Legends department update! This month, we hosted our 40<sup>th</sup> North American League of Legends tournament. The tournament consisted of three matches against two different teams of Villoux users. Ultimately, Team Ahri, which consisted of the users Mr. DeggleBeggle and Mr. Elliel; the League of Legends Tournament Director, Mr. Blustix1; the Realm of the Mad God Department Chairman, Mr. Fulfi; and me, won the tournament. Amongst us, Mr. Elliel was named tournament champion for his exemplary work as a jungler. On behalf of my department, congratulations to Mr. Elliel and the members of the House on the winning team for a job well done.

My Department has made progress towards resuming hosting our EU West tournaments this month. We have hired a second EU West Tournament Director, Mr. ShingekiBahamut, who is very eager to help us begin registering users for the tournament. The EU West Tournament Master, Mr. ADC Is Dead will be given leeway to begin organizing a tournament for next month and I fully expect to report on an EU West tournament next month in addition to our North American tournament. The Latin America North Tournament Master, Sr. SaltyBae has been given a likewise ultimatum to begin work on a LAN tournament next month. Given Villoux's Latin America North population is so small, Sr. SaltyBae must truly work to prove the merits of our department continuing to sponsor his region. If he fails to make progress on hosting a tournament next month, I fully expect the League of Legends Department to stop supporting Latin America North as a tournament region.

Going back to our North American tournaments, registration for our North American tournament has been stagnating at about ten users, which is considerably lower than the numbers for tournaments we've hosted for the region in the past. The individuals who encouraged their friends to register for the tournament are a wonderful example of how we can continue to increase the number of participants.

Each month, either a member of the North American Tournament Direction staff such as the North American Tournament Master Ms. Heeheeexd or myself send an individual Discord message to every member of the system who plays League of Legends on the North American server, which includes several members of this House. Whereas some members of the House have been allies to our department by participating in our tournaments, several other users have been far less active, some even going so far as to have never participated in a tournament. I would very much like to take this House of Players meeting as an opportunity to hear feedback from members of the House who play League of Legends but do not participate in our League of Legends tournaments to better understand why you choose not to participate in tournaments and what my department might be able to do to change your mind. Specifically, I would appreciate if members could express why they have been unavailable for tournaments in the past such as the time being inconvenient for them, only wanting to play in tournaments that offer prizes, or simply not being interest in tournaments altogether. I am very open to hearing from all members on this issue. I thank all members of the House for their time and hope to hear from many of you soon. Thank you.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the League of Legends Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively. As a reminder, Ms. Ashella has specifically asked for members of the House who play League of Legends on the North American server but who have not participated in previous League of Legends tournaments to explain why they have chosen not to participate.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the League of Legends Department, we will now move to the system's third largest department, the Osu! Department. Presenting the Osu! department update is the Osu! Department Chairman, Mr. DuXaaa.**

### *Osu! Update as Read by DuXaaa*

Good day, Villoux House of Players. My name is DuXaaa and I am proud to serve as your Osu! Department Chairman. I would like to start my update by expressing how proud I am of how quickly the Osu! Department is becoming a staple in Villoux by becoming a larger department every day. This expansion is only possible due to my wonderful department staff, which recently expanded to include the Osu! Tournament Directors, Mr. Tigereyes144 and Mlle. Kaeldori. We have also created three new positions for Osu! Map Poolers and have hired M. Weavile and Mr. Phox to fill some of those roles. They are led by the Osu! Map Master, Mr. Lefafel, who has himself been instrumental in the growth and success of our tournaments. Finally, I would like to congratulate the Mr. Izzy Mizzy on his promotion to Osu! Tournament Master, a position that will allow him to be my right-hand-man in all matters related to our Osu! tournament.

Whereas I was hoping to host an Osu! tournament this month, the large number of registrants has forced us to delay the tournament to begin on the first of March. This delay allows us the opportunity to continue to increase the number of registrants, which my staff and I feel will add to the fun and competitiveness of our tournament. If you are interested in becoming one of these users registered for the tournament, the link to register can be found in #osu\_ announcements,

as always. I hope to have a more exciting a newsworthy department update at next month's House of Players meeting, including the congratulations to the champion of the 2<sup>nd</sup> Villoux Osu! tournament.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the Osu! Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Osu! Department, we will now move to the system's fourth largest department, the Team Fortress 2 Department. Presenting the Team Fortress 2 department update is the Team Fortress 2 Department Chairman, Ms. Angelberry.**

## *Team Fortress 2 Update as Read by Angelberry*

Hello, everyone! My name is Angelberry and I am thrilled to be joining you as the new Team Fortress 2 Department Chairman. I have been in Villoux for several months now, previously serving as the Team Fortress 2 Server Head of Villoux's Orange Low-Gravity Crit. Server. Though I am excited to begin my tenure as Team Fortress 2 Department Chairman, I would like to thank the previous Team Fortress 2 Department Chairman, Mr. Priest of the Ogelord for his big role in re-establishing the department and helping us get to where we are today. Mr. Priest was so helpful I have offered him my old position as Server Head of the Orange Low-Gravity Crit. Server, and I am so pleased to announce he has accepted that offer. Especially in my first few weeks as Department Chairman, I am sure his advice through his own experience as Department Chairman will be very useful to me.

The server staff of the Orange Low-Gravity Crit. Server is an area in which I would like to begin exploring some changes. Due to Mr. Priest's limited availability, some members of staff have been out-of-the-loop on server news and progress, so I will be making a big point to ensure we are all on the same page. I will also be exploring removing some of the more inactive members of staff and replacing them with newer, more active ones. While we are undergoing this shift in staff, I hope I can rely on the members of the House of Players to help bring any issues on the server to my attention.

The IP address to the server can be found on our newly published webpage on Villoux's website. The link to the webpage can be found pinned in #team\_fortress\_2. I would like to give personal thanks to the Executive System Coder, the honorable Sr. Jibram for the work and care he gave to ensure we have a fully comprehensive and functional webpage. I know my staff and I will come to rely on this webpage for nearly all information regarding the server.

I will conclude my department update by addressing a goal Mr. Priest brought to your attention last month via the right honorable Villoux Chief of Staff, Dr. Baskerville's State of Villoux Address. In the address, hosting tournaments was mentioned. This is still a long-term goal I would like to see my department implement, but I am afraid it is a bit too lofty for my first month as Department Chairman, especially considering the work that needs to be done with server

staff. I will give an update next month on where I see progress for these tournaments going, but, for now, I will thank you very much for your time and conclude my department update.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the Team Fortress 2 Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Team Fortress 2 Department, we will now move to the system's fourth smallest department, the Minecraft Department. Presenting the Minecraft Department update is the Minecraft Department Chairman, Mr. SargentJ5.**

## *Minecraft Update as Read by SargentJ5*

Good afternoon, Villoux House of Players. My name is SargentJ5 and I am excited to join you as the Minecraft Department Chairman. I will be replacing the previous Minecraft Department Chairman, the honorable M. Sullivan, who has left this position due to his lack of availability. When M. Sullivan led the re-establishment of the Minecraft Department, he did so with the full support of this House and I very much hope I can continue to rely on that support during my tenure as Minecraft Department Chairman.

M. Sullivan outlined plans for a Minecraft server that was based around communities and a rank system for players to use to level-up certain career paths. I will widely be keeping to M. Sullivan's plans, but I may seek to add one or two additional mods to enhance the PVP and survival components of the server. Since I have only just been sworn into this new position, I will need some more time to have a more detailed report of what I plan on keeping and what I plan on changing, but I am confident I will have that information prepared by the time of next month's meeting.

Though I am not sure if we will have a Minecraft server ready for beta testing by the end of next month, I am fully committed to working towards that goal. I can say that I do not anticipate it taking longer than a month or two to get things properly underway. The biggest obstacle currently facing releasing a server is the server's map. Fortunately, the former Executive System Builder and Baskerville Advisor, Mr. SoulSniper214 has graciously volunteered to help on that front. I plan on working with Mr. SoulSniper and the System Press Department to begin recruiting Minecraft Builders from outside of Villoux to aid in working on the server's map. Hopefully, amongst these new Builders will be someone I feel is worthy of serving as the Minecraft Building Manager, but I am very grateful for Mr. SoulSniper acting in that capacity in the meantime. With that being said, I conclude my rather short department update and look forward to giving a fuller update at next month's meeting.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the Minecraft Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Minecraft Department, we will now conclude the department updates portion of today's meeting and move to the staff announcements. Presenting the System Press Department announcement is the Executive System Press Officer, Mr. ItzGangsterHD.**

*System Press Announcement as Read by ItzGangsterHD*

Hello, Villoux House of Players. My name is ItzGangsterHD and I am glad to have been recently promoted to Executive System Press Officer. Before serving as Executive System Press Officer, I served as a System Press Officer and as the System Press Manager. As the Executive System Press Officer, I hope to maintain the parts of my department that are running smoothly and fix the parts of my department in need of improvement. I wanted to take this opportunity to give you all an idea for how I would like the System Press Department to continue moving forward.

The System Press division of the System Press Department has been doing very well this year. Our posts for our Realm of the Mad God guild, the Villoux Guild, and our Orange Low-Gravity Crit. Team Fortress 2 server did very well in bringing new users to the system. I would like to thank the System Press Officers who upvoted and commented on the posts for those services. Their hard-work certainly paid off by all the new users who joined Villoux from the posts. I would also like to thank and congratulate the Osu! Department Chairman, Mr. DuXaaa for the successful post he made on the Osu! forums to register for our second Osu! tournament. That post as well has brought in about two dozen new users to Villoux's Discord Server, so thank you, Mr. DuXaaa, for being such a help to advertising for my department.

The Radio Villoux division is one of those areas in which I feel we need to improvements. Radio Villoux events have been very shaky this year, with only a few weeks actually having the events which are supposed to be scheduled every week on Friday nights from 6:00 PM – 10:00 PM CST. The previous Executive System Press Officer, Mr. Crazycat seem to have a lot of communication difficulties with the Radio Villoux DJ Manager, Mr. Skullslice, but I hope Mr. Skullslice and I will have a much better working relationship. If Radio Villoux events do not resume a normal schedule in the coming weeks, I will know that replacement in its administration is necessary and will make changes to the division to ensure it can go on to host successful events.

For the System Commercialist division, I would like to start by thanking the Baskerville Advisor, Dr. Afecter for bringing a potential Osu! streamer to our attention. Mr. DuXaaa has expressed interest in having some of the matches of our Osu! tournaments streamed, and Dr. Afecter has a personal connection with the #2 ranked player in Canada, a former Villoux user named Mr. SeaNurp. I am going to be entering negotiations with Mr. SeaNurp about streaming for Villoux's Osu! Department and will look forward to giving you an update next month. I would also like to thank the Realm of the Mad God Department Chairman, Mr. Fulfi and the League of Legends Department Chairman, Ms. SimplyAshella for sending my department recommendations for System Commercialists for their respective departments. Their recommendations are still being reviewed, but I expect I will be able to likewise update you on them next month.

Finally, our Misc. Gaming division continues to be in good hands under the Misc. Gaming Section Manager, Mr. Deviationlark. Mr. Deviationlark is currently working with the TeamSpeak

Operative Manager, Mr. Makkapacca5 on developing an Elder Scrolls Online section. The ESO section currently has the support of nine Villoux users but has not brought any new users to the system as of yet. I hope that Mr. Makkapacca will begin trying to work with me more directly to create some posts advertising the section so it can eventually move towards department-status. Mr. Deviationlark himself is currently serving as the section leader of an Apex Legends section, though he hopes to pass this position on to another user who is interested in Apex Legends before too long. The Apex Legends section is a new one, so new that we have not yet made an official announcement about it outside of today's meeting, but Mr. Deviationlark will be posting more information about it at the beginning of next week. If you know that you would be interested in helping grow an Apex Legends section in Villoux, please be sure to message Mr. Deviationlark during today's meeting. That concludes my department announcements. Thank you.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the System Press Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the System Press Department, we will now move to the Discord Operation Department's announcement. Presenting the Discord Operation Department announcement is the Executive Discord Operator, Mr. Danthemanns.**

### *Discord Operation Announcement as Read by Danthemanns*

Villoux House of Players, I would like to provide a few quick announcements from the Discord Operation Department. Firstly, I would like to note we had some issues with the Villoux Verification Bot earlier this month. When we installed a new Villoux Operator Bot, the Villoux Verification Bot stopped assigning new users the "Unverified" role and was not verifying users in the unverified role after they typed the command prompt. There was a communication issue between the two bots, but that issue has now been resolved thanks to the Baskerville Advisor of Coding, Mr. Phaseout. Mr. Phaseout worked with the Villoux Operator Bot's initial developer, the former Executive System Coder, Mr. Silent and was able to determine the issue and work with Mr. Silent to fix it. I am happy to report the Villoux Verification Bot is now back online and working at full capacity thanks to the collaboration between Mr. Phaseout and Mr. Silent. I would like to especially thank both of these users since neither one is a member of the Discord Operation Department nor the System Coding Department. I think it is a great testament to inter-department cooperation that we had a member of the Baskerville Cabinet work with a regular user to resolve an issue facing the Discord Operation Department and the System Coding Department. Again, thank you to Mr. Phaseout and Mr. Silent and to the Executive System Coder, the honorable Sr. Jibram for his help in getting me into contact with the right people.

I would like to congratulate the former System Press Officer, Mr. Ssibren on his promotion to Discord Operator! Mr. Ssibren took the Discord Operator Test yesterday and passed with flying colors. I am very glad to have Mr. Ssibren join my staff and look forward to working with him to help ensure peace and stability on Villoux's Discord Server. We are still looking to expand the number of Discord Operators we have, so please send me a private message if you think you would be interested in becoming a Discord Operator. Next, I would like to congratulate the former

Discord Operator, Mr. Wrench on his promotion to Discord Operative Manager. In this upper-administrative position, Mr. Wrench will be able to help me train newer Discord Operators like Mr. Ssibren and resolve conflicts between Discord Operators should there ever be any. I am glad to have Mr. Wrench join me as my second-in-command and thank him for his willingness to serve.

I will conclude my announcement with two reminders. Firstly, the Discord Ordinance, which is the ordinance that dictates how our Discord server is administrated, has been updated on Villoux's website thanks to the Executive System Coder, the honorable Sr. Jibram. The right honorable Villoux Chief of Staff, Dr. Baskerville has posted a link to the Discord Ordinance in #villoux\_announcements, where it will remain pinned for users to view at any time. If you have any questions about anything you read in the Discord Ordinance, please feel free to message me. My second reminder is to ensure that you always keep #villoux\_announcements unmuted since nearly every system official uses it to post important information about their respective departments. Thank you for your cooperation.

**Transition: We will now open the floor to any questions, comments, or concerns in regard to the Discord Operation Department. If you have a question, comment, or concern, please send me a private message with question, comment, or concern, respectively.**

**Transition: Seeing as there appear to be no further questions, comments, or concerns in regard to the Discord Operation Department, we will now conclude the staff announcements portion of today's meeting and move to the closing ceremonies.**

## *Closing Ceremonies as Read by Dr. Baskerville*

Good day, Villoux House of Players. I would like to begin my remarks today by congratulating our three new Grand Council Members – the Executive System Press Officer, Mr. ItzGangsterHD; the Team Fortress 2 Department Chairman, Ms. Angelberry; and the Minecraft Department Chairman, Mr. SargentJ5. Your respective departments, the Grand Council, and, indeed, the system look forward to the work that each of you will do with your specific skillsets, and I am excited to be with you as you journey into your first month as a Grand Council Member. When the League of Legends Department Chairman, Ms. SimplyAshella mentioned users who encouraged their friends to register for our League of Legends tournaments, the Executive Baskerville Assistant, Ms. Peekatchu and the Executive Discord Operator, Mr. Danthemanrs came to my mind as model examples. They both have done a tremendous job in the past months in ensuring all of their friends register and participate in our North American League of Legends tournaments. The Executive System Coder, the honorable Sr. Jibram is another example of a Grand Council Member doing tremendous work in Villoux. Since his installation as Executive one month ago, Sr. Jibram has spent countless hours with me updating long overdue changes on Villoux's website. The website is a major resource for all Villoux users, but especially for our staff members. I hope you all will consider thanking Sr. Jibram whenever you see him post updated links and information for your respective departments in public text channels.

Speaking of hard-working members of the system, I would like to thank and announce this month's Friend of Villoux. As you know, the Friend of Villoux award is a monthly award given

to a member of Villoux's staff that has gone above and beyond in their respective field. It gives me great pleasure to announce this month's Friend of Villoux is the Baskerville Advisor, Mr. Phaseout. Mr. Phaseout led the charge on restoring the Villoux Verification Bot, and, by extension, helped to ensure that our Discord server remained running as smoothly and as efficiently as possible. Without Mr. Phaseout and his collaborations with the former Executive System Coder, Mr. Silent, I shudder to think the chaos that would have unfolded without the Villoux Verification Bot. Honorable mentions for this month include the Baskerville Assistant, Mr. KingKazma and the Discord Operator, Mr. Ssibren for his work as a System Press Officer. Special thanks to the Baskerville Assistant Manager, Mr. VClip for sending the House of Players reminders this month and special thanks to the Baskerville Assistant, Mr. Cat for moving staff members into the House of Players voice channels. All of these users are yet another example of the excellence that runs throughout all of our staff, which leads me to take this opportunity to thank you – the hard-working members of Villoux's staff that make Villoux a system in which "excellence is your only option".

At this time, I will open the floor to any general questions, comments, or concerns. If you have a question, comment, or concern that did not fit into any of our previous sessions, please feel free to send me a private message with "question", "comment", or "concern", respectively.

With that in mind and in heart, I, the Right Honorable Villoux Chief of Staff, Dr. Baskerville do hereby adjourn this 78<sup>th</sup> meeting of the Villoux House of Players. Please return to your appropriate channels.
